

Section 1: 10-Q (10-Q)

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM TO

COMMISSION FILE NUMBER: 001-37585

Allegiance Bancshares, Inc.

(Exact name of registrant as specified in its charter)

Texas
(State or other jurisdiction
of incorporation or organization)

26-3564100
(I.R.S. Employer
Identification No.)

8847 West Sam Houston Parkway, N., Suite 200
Houston, Texas 77040

(Address of principal executive offices, including zip code)

(281) 894-3200

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
		Emerging growth company	<input checked="" type="checkbox"/>

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

As of October 30, 2018, there were 21,827,053 outstanding shares of the registrant's Common Stock, par value \$1.00 per share.

CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2018
(Unaudited)

1. NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

Nature of Operations-Allegiance Bancshares, Inc. (“Allegiance”) and its wholly-owned subsidiary, Allegiance Bank, (the “Bank”, and together with Allegiance, collectively referred to as the “Company”) provide commercial and retail loans and commercial banking services. The Company derives substantially all of its revenues and income from the operation of the Bank. The Company is focused on delivering a wide variety of relationship-driven commercial banking products and community-oriented services tailored to meet the needs of small to medium-sized businesses, professionals and individuals. The Company operated 16 offices and one loan production office in Houston, Texas and the surrounding region as of September 30, 2018. The Bank provides its customers with a variety of banking services including checking accounts, savings accounts and certificates of deposit, and its primary lending products are commercial, personal, automobile, mortgage and home improvement loans. The Bank also offers safe deposit boxes, automated teller machines, drive-through services and 24-hour depository facilities.

Basis of Presentation-The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) for interim financial information and in accordance with guidance provided by the Securities and Exchange Commission. Accordingly, the condensed consolidated financial statements do not include all of the information and footnotes required by GAAP for complete financial statements. The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements reflect all adjustments considered necessary for a fair presentation of the financial position, results of operations and cash flows of the Company on a consolidated basis, and all such adjustments are of a normal recurring nature. Transactions with Allegiance have been eliminated. The condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

Significant Accounting and Reporting Policies

The Company’s significant accounting and reporting policies can be found in Note 1 of the Company’s annual financial statements included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

New Accounting Standards

Adoption of New Accounting Standards

ASU 2014-09, “Revenue from Contracts with Customers (Topic 606).” ASU 2014-09 supersedes the revenue recognition requirements in Revenue Recognition (Topic 605), and most industry-specific guidance throughout the Industry Topics of the Codification. The core principle of ASU 2014-09 is that an entity should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services.

The Company records revenue from contracts with customers in accordance with Accounting Standards Codification Topic 606, “Revenue from Contracts with Customers” (“Topic 606”). Under Topic 606, the Company must identify the contract with a customer, identify the performance obligations in the contract, determine the transaction price, allocate the transaction price to the performance obligations in the contract and recognize revenue when (or as) the Company satisfies a performance obligation. Significant revenue has not been recognized in the current reporting period that results from performance obligations satisfied in previous periods. The Company’s primary sources of revenue are derived from interest and dividends earned on loans, investment securities and other financial instruments that are not within the scope of ASU 2014-09. The Company has evaluated the nature of its contracts with customers and determined that further disaggregation of revenue from contracts with customers into more granular categories beyond what is presented in the Consolidated Statements of Income was not necessary. The Company generally fully satisfies its performance obligations on its contracts with customers as services are rendered and the transaction prices are typically fixed, charged either on a periodic basis or based on activity. Because performance obligations are satisfied as services are rendered and the transaction prices are fixed, there is little judgment involved in applying Topic 606 that significantly affects the determination of the amount and timing of revenue from contracts with customers. The new standard was effective for the Company on January 1, 2018 and did not have a significant impact on its consolidated financial statements and related disclosures.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

ASU No. 2016-01, "Financial Instruments - Overall (Subtopic 825-10): Recognition of Financial Assets and Financial Liabilities." ASU 2016-01 makes targeted amendments to fair value measurement and disclosure guidance. ASU 2016-01 requires equity investments (other than equity method investments) to be measured at fair value with changes in fair value recognized in net income. This change is only applied if a readily determinable fair value can be obtained. The update also requires the use of exit prices to measure fair value for disclosure purposes as well as other enhanced disclosure requirements. ASU 2016-01 was effective for the Company on January 1, 2018 and did not have a significant impact on its financial statements and related disclosures. See Note 5 – Fair Value Disclosures for further information.

ASU 2016-15, "Statement of Cash Flows (Topic 230) - Classification of Certain Cash Receipts and Cash Payments." ASU 2016-15 provides guidance related to certain cash flow issues in order to reduce the current and potential future diversity in practice. Among other things, the update clarifies the appropriate classification for proceeds from settlement of bank owned life insurance (BOLI) policies. The guidance is effective for public companies for annual periods beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted with retrospective application. ASU 2016-15 was effective for the Company on January 1, 2018 and did not have a significant impact on its financial statements and related disclosures.

ASU 2018-02, "Income Statement - Reporting Comprehensive Income (Topic 220) - Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." ASU 2018-02 amends ASC 220, Income Statement - Reporting Comprehensive Income, to allow a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the Tax Cuts and Jobs Act. On December 22, 2017, the United States enacted tax reform legislation commonly known as the Tax Cuts and Jobs Act (the "Tax Act"), resulting in significant modifications to existing law. Authoritative guidance and interpretation by regulatory bodies is ongoing, and as such, the accounting for the effects of the Tax Act is not final and the full impact of the new regulation is still being evaluated. ASU 2018-02 is effective on January 1, 2019, with early adoption permitted. The Company early adopted and recognized a decrease to retained earnings of \$72 thousand due to a reclassification on January 1, 2018.

Newly Issued But Not Yet Effective Accounting Standards

ASU 2016-02, "Leases (Topic 842)." ASU 2016-02 will, among other things, require lessees to recognize a lease liability, which is a lessee's obligation to make lease payments arising from a lease, measured on a discounted basis; and a right-of-use asset, which is an asset that represents the lessee's right to use, or control the use of, a specified asset for the lease term. ASU 2016-02 does not significantly change lease accounting requirements applicable to lessors; however, certain changes were made to align, where necessary, lessor accounting with the lessee accounting model and ASC Topic 606, "Revenue from Contracts with Customers." ASU 2016-02 will be effective for the Company on January 1, 2019 and will require transition using a modified retrospective approach for leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements. Early application of this ASU is permitted for all entities. Adoption of ASU 2016-02 is not expected to have a material impact on the Company's financial statements. The Company leases certain properties and equipment under operating leases that will result in the recognition of lease assets and lease liabilities on the Company's balance sheet under the ASU. While the Company is currently evaluating the impact of adopting ASU 2016-02, it is aware that the adoption will result in an increase in right-of-use assets and lease liabilities recorded on its balance sheet.

ASU 2016-13, "Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments." Among other things, ASU 2016-13 requires the measurement of all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions and reasonable and supportable forecasts. Financial institutions and other organizations will now use forward-looking information to better form their credit loss estimates. Many of the loss estimation techniques applied today will still be permitted, although the inputs to those techniques will change to reflect the full amount of expected credit losses. In addition, ASU 2016-13 amends the accounting for credit losses on available for sale debt securities and purchased financial assets with credit deterioration. ASU 2016-13 is effective for the Company on January 1, 2020 and must be applied using the modified retrospective approach with limited exceptions. Early adoption is permitted for fiscal years, and interim periods within those years, beginning after December 15, 2018. While the Company is currently unable to reasonably estimate the impact of adopting ASU 2016-13, the Company expects that the impact of adoption will be significantly influenced by the composition, characteristics and quality of its loan and securities portfolios as well as the prevailing economic conditions and forecasts as of the adoption date. The Company has formed a cross functional team and with the assistance of a third-party provider is assessing the Company's data and system needs to evaluate the impact that adoption of this standard will have on the financial condition and results of operations of the Company.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

ASU No. 2017-04, "Intangibles - Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment," ASU 2017-04 eliminates Step 2 from the goodwill impairment test which required entities to compute the implied fair value of goodwill. Under ASU 2017-04, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting unit's fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. ASU 2017-04 will be effective for the Company on January 1, 2020, with earlier adoption permitted and is not expected to have a significant impact on the Company's financial statements.

ASU 2017-08, "Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20) - Premium Amortization on Purchased Callable Debt Securities." ASU 2017-08 shortens the amortization period for certain callable debt securities held at a premium to require such premiums to be amortized to the earliest call date unless applicable guidance related to certain pools of securities is applied to consider estimated prepayments. Under prior guidance, entities were generally required to amortize premiums on individual, non-pooled callable debt securities as a yield adjustment over the contractual life of the security. ASU 2017-08 does not change the accounting for callable debt securities held at a discount. ASU 2017-08 will be effective for the Company on January 1, 2019, with early adoption permitted. The Company is currently evaluating the potential impact of ASU 2017-08 on its financial statements.

2. GOODWILL AND CORE DEPOSIT INTANGIBLE ASSETS

Changes in the carrying amount of the Company's goodwill and core deposit intangible assets were as follows:

	<u>Goodwill</u>	<u>Core Deposit Intangibles</u>
	<u>(Dollars in thousands)</u>	
Balance as of January 1, 2017	\$ 39,389	\$ 4,055
Amortization	—	(781)
Balance as of December 31, 2017	\$ 39,389	\$ 3,274
Amortization	—	(586)
Balance as of September 30, 2018	<u>\$ 39,389</u>	<u>\$ 2,688</u>

Goodwill is recorded on the acquisition date of an entity. Management performs an evaluation annually, and more frequently if a triggering event occurs, of whether any impairment of the goodwill and other intangible assets has occurred. If any such impairment is determined, a write-down is recorded. As of September 30, 2018, there were no impairments recorded on goodwill and other intangible assets.

The estimated aggregate future amortization expense for core deposit intangible assets remaining as of September 30, 2018 is as follows (dollars in thousands):

Remaining 2018	\$ 195
2019	781
2020	744
2021	484
2022	484
Thereafter	—
Total	<u>\$ 2,688</u>

3. SECURITIES

The amortized cost and fair value of investment securities were as follows:

	September 30, 2018			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Dollars in thousands)			
Available for Sale				
U.S. Government and agency securities	\$ 6,118	\$ 58	\$ (73)	\$ 6,103
Municipal securities	219,231	546	(5,901)	213,876
Agency mortgage-backed pass-through securities	44,034	36	(1,576)	42,494
Corporate bonds and other	38,321	—	(679)	37,642
Total	\$ 307,704	\$ 640	\$ (8,229)	\$ 300,115
December 31, 2017				
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	(Dollars in thousands)			
Available for Sale				
U.S. Government and agency securities	\$ 8,507	\$ 232	\$ (24)	\$ 8,715
Municipal securities	222,330	2,470	(1,842)	222,958
Agency mortgage-backed pass-through securities	32,014	159	(361)	31,812
Corporate bonds and other	46,247	62	(179)	46,130
Total	\$ 309,098	\$ 2,923	\$ (2,406)	\$ 309,615

As of September 30, 2018, the Company's management did not expect to sell any securities classified as available for sale with material unrealized losses, and the Company believes it is more likely than not it will not be required to sell any of these securities before their anticipated recovery, at which time the Company will receive full value for the securities. The fair value is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Management does not believe any of the securities are impaired due to reasons of credit quality. Accordingly, as of September 30, 2018, management believed the unrealized losses in the previous table are temporary and no other than temporary impairment loss has been realized in the Company's consolidated statements of income.

The amortized cost and fair value of investment securities at September 30, 2018, by contractual maturity, are shown below. Expected maturities may differ from contractual maturities if borrowers have the right to call or prepay obligations at any time with or without call or prepayment penalties.

	Amortized Cost	Fair Value
	(Dollars in thousands)	
Due in one year or less	\$ 8,760	\$ 8,730
Due after one year through five years	72,298	70,975
Due after five years through ten years	87,210	85,394
Due after ten years	95,402	92,522
Subtotal	263,670	257,621
Agency mortgage-backed pass through securities	44,034	42,494
Total	\$ 307,704	\$ 300,115

There were no securities sold during the three and nine months ended September 30, 2018. During the three and nine months ended September 30, 2017, the Company sold \$9.0 million of corporate bonds with a minimal loss recognized. At September 30, 2018 and December 31, 2017, the Company did not own securities of any one issuer, other than the U.S government and its agencies, in an amount greater than 10% of consolidated shareholders' equity at such respective dates.

The carrying value of pledged securities was \$3.0 million at September 30, 2018 and \$5.0 million at December 31, 2017, respectively. The securities are pledged to further collateralize letters of credit issued by the Bank, but confirmed by another financial institution.

Credit Quality Indicators

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt, including factors such as: current financial information, historical payment experience, credit documentation, public information and current economic trends. The Company analyzes loans individually by classifying the loans by credit risk. As part of the ongoing monitoring of the credit quality of the Company's loan portfolio and methodology for calculating the allowance for credit losses, management assigns and tracks risk ratings to be used as credit quality indicators.

The following is a general description of the risk ratings used:

Pass—Loans classified as pass are loans with low to average risk and not otherwise classified as watch, special mention, substandard or doubtful. In addition, the guaranteed portion of SBA loans are considered pass risk rated loans.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Watch—Loans classified as watch loans may still be of high quality, but have an element of risk added to the credit such as declining payment history, deteriorating financial position of the borrower or a decrease in collateral value.

Special Mention—Loans classified as special mention have a potential weakness that deserves management’s close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution’s credit position at some future date. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Substandard—Loans classified as substandard have well-defined weaknesses on a continuing basis and are inadequately protected by the current net worth and paying capacity of the borrower, impaired or declining collateral values, or a continuing downturn in their industry which is reducing their profits to below zero and having a significantly negative impact on their cash flow. These classified loans are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful—Loans classified as doubtful have all the weaknesses inherent in those classified as substandard with the added characteristic that the weaknesses make collection or liquidation in full on the basis of currently existing facts, conditions and values highly questionable and improbable.

Based on the most recent analysis performed, the risk category of loans by class of loan at September 30, 2018 is as follows:

	<u>Pass</u>	<u>Watch</u>	<u>Special Mention</u>	<u>Substandard</u>	<u>Doubtful</u>	<u>Total</u>
	(Dollars in thousands)

Troubled Debt Restructurings

As of September 30, 2018 and December 31, 2017, the Company had a recorded investment in troubled debt restructurings of \$26.0 million and \$25.6 million, respectively. The Company allocated \$1.9 million and \$2.2 million of specific reserves for troubled debt restructurings at September 30, 2018 and December 31, 2017, respectively.

The following tables present information regarding loans modified in a troubled debt restructuring during the three and nine months ended September 30, 2018 and 2017:

Troubled debt restructurings resulted in charge-offs of \$55 thousand and \$72 thousand during the three and nine months ended September 30, 2018, respectively. Troubled debt restructurings resulted in charge-offs of \$407 thousand during the nine months ended September 30, 2017. There were no charge-offs from troubled debt restructurings during the three months ended September 30, 2017.

As of September 30, 2018, a \$29 thousand loan was modified under a troubled debt restructuring during the previous twelve month period that subsequently defaulted during the nine months ended September 30, 2018. As of September 30, 2017, a \$12 thousand loan was modified under a troubled debt restructuring during the previous twelve month period that subsequently defaulted and was charged-off during the nine months ended September 30, 2017. Default is determined at 90 or more days past due. The modifications primarily related to extending the amortization periods of the loans. The Company did not grant principal reductions on any restructured loans. There were no commitments to lend additional amounts to troubled debt restructured loans for the three and nine months ended September 30, 2018 and 2017. During the nine months ended September 30, 2018, the Company added \$1.8 million in new troubled debt restructurings, of which all were still outstanding on September 30, 2018.

5. FAIR VALUE

The Company uses fair value measurements to record fair value adjustments to certain assets and to determine fair value disclosures. Fair value represents the exchange price that would be received from selling an asset or paid to transfer a liability, otherwise known as an “exit price,” in the principal or most advantageous market available to the entity in an orderly transaction between market participants on the measurement date.

Fair Value Hierarchy

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The Company groups financial assets and financial liabilities measured at fair value in three levels, based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. These levels are:

- Level 1—Quoted prices for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

- Level 2—Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3—Significant unobservable inputs that reflect management’s judgment and assumptions that market participants would use in pricing an asset or liability that are supported by little or no market activity.

The carrying amounts and estimated fair values of financial instruments that are reported on the balance sheet are as follows:

Impaired Loans with Specific Allocation of Allowance

During the nine months ended September 30, 2018 and the year ended December 31, 2017, certain impaired loans were reevaluated and reported at fair value through a specific allocation of the allowance for loan losses. At September 30, 2018, the total reported fair value of impaired loans of \$6.8 million based on collateral valuations utilizing Level 3 valuation inputs had a carrying value of \$10.4 million that was reduced by specific allowance allocations totaling \$3.6 million. At December 31, 2017, the total reported fair value of impaired loans of \$11.5 million based on collateral valuations utilizing Level 3 valuation inputs had a carrying value of \$13.8 million that was reduced by specific allowance allocations totaling \$2.4 million.

6. DEPOSITS

Time deposits that met or exceeded the Federal Deposit Insurance Corporation insurance limit of \$250 thousand at September 30, 2018 and December 31, 2017 were \$304.4 million and \$227.4 million, respectively.

Scheduled maturities of time deposits for the next five years are as follows (dollars in thousands):

Within one year	\$ 519,185
After one but within two years	141,239
After two but within three years	69,622
After three but within four years	71,417
After four but within five years	102,912
Total	<u>\$ 904,375</u>

The Company had \$283.6 million and \$314.8 million of brokered deposits as of September 30, 2018 and December 31, 2017, respectively. Included in these amounts were reciprocal deposits that the Company has placed through the Certificates of Deposits Account Registry Service (CDARS) Network which totaled \$46.5 million and \$68.4 million, at September 30, 2018 and December 31, 2017, respectively. There were no major concentrations of deposits with any one depositor at September 30, 2018 and December 31, 2017.

7. BORROWINGS AND BORROWING CAPACITY

The Company has an available line of credit with the Federal Home Loan Bank (“FHLB”) of Dallas, which allows the Company to borrow on a collateralized basis. FHLB advances are used to manage liquidity as needed. The advances are secured by a blanket lien on certain loans. Maturing advances are replaced by drawing on available cash, making additional borrowings or through increased customer deposits. At September 30, 2018, the Company had a total borrowing capacity of \$1.04 billion, of which \$755.9 million was available and \$282.5 million was outstanding. FHLB advances of \$211.0 million were outstanding at September 30, 2018, at a weighted average interest rate of 2.20%. Letters of credit were \$71.5 million at September 30, 2018, of which \$32.1 million will expire in October 2018, \$13.1 million will expire in December 2018, \$8.8 million will expire in January 2019, \$10.2 million will expire in February 2019, \$5.5 million will expire in August 2019, \$300 thousand will expire in December 2019 and \$1.6 million will expire in January 2020.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

In 2015, the Company borrowed \$18.0 million under its credit agreement with another financial institution, which was in addition to the \$10.1 million of indebtedness incurred under the same credit agreement in 2014. The maximum commitment to advance funds under the credit agreement was originally \$30.0 million, which has been and will continue to be reduced by \$4.285 million on each December 22nd, beginning on December 22, 2015. The credit agreement matures in December 2021. The Company is required to repay any outstanding balance in excess of the then-current maximum commitment amount. After giving effect to the annual reductions, the unused borrowing capacity of the revolving credit agreement was \$17.1 million at September 30, 2018. The Company used the funds borrowed in 2015 to repay debt that F&M Bancshares, Inc. owed and used the funds borrowed in 2014 to pay off a previous borrowing with another financial institution that had been entered into during 2013 in conjunction with the acquisition of Independence Bank. In October 2015, the Company paid down \$27.5 million of the credit agreement with a portion of the proceeds from the initial public offering of Allegiance common stock. The credit agreement includes certain restrictive covenants. At September 30, 2018, the Company believes it is in compliance with its debt covenants and had not been made aware of any noncompliance by the lender. The interest rate on the outstanding debt under the revolving credit agreement is the Prime rate minus 25 basis points, or 4.75%, at September 30, 2018, and is paid quarterly. Scheduled principal maturities are as follows (dollars in thousands):

Remaining 2018	\$	—
2019		—
2020		—
2021 and thereafter		569
Total	\$	<u>569</u>

8. SUBORDINATED DEBT

Junior Subordinated Debentures

On January 1, 2015, the Company acquired F&M Bancshares and assumed Farmers & Merchants Capital Trust II and Farmers & Merchants Capital Trust III. Each of these trusts is a capital or statutory business trust organized for the sole purpose of issuing trust securities and investing the proceeds in the Company's junior subordinated debentures. The preferred trust securities of each trust represent preferred beneficial interests in the assets of the respective trusts and are subject to mandatory redemption upon payment of the junior subordinated debentures held by the trust. The common securities of each trust are wholly owned by the Company. Each trust's ability to pay amounts due on the trust preferred securities is solely dependent upon the Company making payment on the related junior subordinated debentures. The debentures, which are the only assets of each trust, are subordinate and junior in right of payment to all of the Company's present and future senior indebtedness. The Company has fully and unconditionally guaranteed each trust's obligations under the trust securities issued by such trust to the extent not paid or made by such trust, provided such trust has funds available for such obligations.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Under the provisions of each issue of the debentures, the Company has the right to defer payment of interest on the debentures at any time, or from time to time, for periods not exceeding five years. If interest payments on either issue of the debentures are deferred, the distributions on the applicable trust preferred securities and common securities will also be deferred.

The Company assumed the junior subordinated debentures with an aggregate original principal amount of \$11.3 million and a current fair value at September 30, 2018 of \$9.3 million. At acquisition, the Company recorded a discount of \$2.5 million on the debentures. The difference between the carrying value and contractual balance will be recognized as a yield adjustment over the remaining term for the debentures. At September 30, 2018, the Company had \$11.3 million outstanding in junior subordinated debentures issued to the Company's unconsolidated subsidiary trusts. The junior subordinated debentures are included in tier 1 capital under current regulatory guidelines and interpretations.

A summary of pertinent information related to the Company's issues of junior subordinated debentures outstanding at September 30, 2018 is set forth in the table below:

Description	Issuance Date	Trust Preferred Securities Outstanding	Interest Rate (1)	Junior Subordinated Debt Owed to Trusts	Maturity Date (2)
(Dollars in thousands)					
Farmers & Merchants Capital Trust II	November 13, 2003	\$ 7,500	3 month LIBOR + 3.00%	\$ 7,732	November 8, 2033
Farmers & Merchants Capital Trust III	June 30, 2005	3,500	3 month LIBOR + 1.80%	3,609	July 7, 2035
				<u>\$ 11,341</u>	

(1) The 3-month LIBOR in effect as of September 30, 2018 was 2.3494%.

(2) All debentures are currently callable.

Subordinated Notes

In December 2017, the Bank completed the issuance, through a private placement, of \$40.0 million aggregate principal amount of Fixed-to-Floating Rate Subordinated Notes (the "Notes") due December 15, 2027. The Notes were issued at a price equal to 100% of the principal amount, resulting in net proceeds to the Bank of \$39.4 million. The Bank intends to use the net proceeds from the offering to support its growth and for general corporate purposes. The Notes are intended to qualify as tier 2 capital for bank regulatory purposes.

The Notes bear a fixed interest rate of 5.25% per annum until (but excluding) December 15, 2022, payable semi-annually in arrears. From December 15, 2022, the Notes will bear a floating rate of interest equal to 3-Month LIBOR + 3.03% until the Notes mature on December 15, 2027, or such earlier redemption date, payable quarterly in arrears. The Notes will be redeemable by the Bank, in whole or in part, on or after December 15, 2022 or, in whole but not in part, upon the occurrence of certain specified tax events, capital events or investment company events. Any redemption will be at a redemption price equal to 100% of the principal amount of Notes being redeemed, plus accrued and unpaid interest, and will be subject to, and require, prior regulatory approval. The Notes are not subject to redemption at the option of the holders.

9. INCOME TAXES

The amount of the Company's federal and state income tax expense is influenced by the amount of pre-tax income, the amount of tax-exempt income and the amount of other nondeductible items. For the three and nine months ended September 30, 2018 income tax expense was \$1.9 million and \$4.9 million, respectively, compared with \$887 thousand and \$4.1 million, respectively, for the three and nine months ended September 30, 2017. The effective income tax rate for the three and nine months ended September 30, 2018 was 17.8% and 17.0%, respectively, compared to 22.9% and 22.3%, respectively, for the three and nine months ended September 30, 2017. The decrease in income tax expense and the effective tax rate year over year was primarily attributable to the Tax Act enacted on December 22, 2017, which reduced the U.S. federal statutory income tax rate from 35% to 21%, effective January 1, 2018.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS
September 30, 2018
(Unaudited)

Interest and penalties related to tax positions are recognized in the period in which they begin accruing or when the entity claims the position that does not meet the minimum statutory thresholds. The Company does not have any uncertain tax positions and does not have any interest and penalties recorded in the income statement for the three and nine months ended September 30, 2018 and 2017. The Company is no longer subject to examination by the U.S. Federal Tax Jurisdiction for the years prior to 2014.

10. STOCK BASED COMPENSATION

During 2015, the Company's Board of Directors and shareholders approved the 2015 Amended and Restated Stock Awards and Incentive Plan (the "Plan") covering certain awards of stock-based compensation to key employees and directors of the Company. The Plan was amended in 2017 and the shareholders authorized a maximum aggregate of 1,900,000 shares of stock to be issued, any or all of which may be issued through incentive stock options. The Company accounts for stock based employee compensation plans using the fair value-based method of accounting. The Company recognized total stock based compensation expense of \$380 thousand and \$1.2 million for the three and nine months ended September 30, 2018, respectively, and \$497 thousand and \$1.3 million for the three and nine months ended September 30, 2017, respectively.

Stock Options

Options to purchase a total of 1,309,231 shares of Company stock have been granted as of September 30, 2018. Under the Plan, options are exercisable for up to 10 years from the date of the grant and are generally fully vested 4 years after the date of grant. The fair value of stock options granted is estimated at the date of grant using the Black-Scholes option-pricing model.

A summary of the activity in the stock option plan during the nine months ended September 30, 2018 is set forth below:

	<u>Number of Options</u> (In thousands)	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term</u> (In years)	<u>Aggregate Intrinsic Value</u> (In thousands)

Restricted Stock Awards

During the nine months ended September 30, 2018, the Company issued 14,752 shares of restricted stock. The forfeiture restrictions on restricted stock shares generally lapse over a period of 4 years, and the shares are considered outstanding at the date of issuance. The Company accounts for restricted stock grants by recording the fair value of the grant on the award date as compensation expense over the vesting period.

As of September 30, 2018, there was \$1.1 million of total unrecognized compensation cost related to nonvested stock options granted under the Plan. The cost is expected to be recognized over a weighted-average period of 1.04 years.

ALLEGIANCE BANCSHARES, INC.
CONDENSED NOTES TO INTERIM CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

A summary of the activity of the nonvested shares of restricted stock during the nine months ended September 30, 2018 is as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
	(Shares in thousands)	
Nonvested share awards outstanding, January 1, 2018	41	\$ 30.46
Share awards granted	15	41.36
Share awards vested	(18)	30.04
Unvested share awards forfeited or cancelled	—	—
Nonvested share awards outstanding, September 30, 2018	38	\$ 34.37

As of September 30, 2018, there was \$978 thousand of total unrecognized compensation cost related to the restricted stock awards which is expected to be recognized over a weighted-average period of 2.88 years.

11. OFF-BALANCE SHEET ARRANGEMENTS, COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company enters into various transactions, which, in accordance with accounting principles generally accepted in the United States, are not included in the Company's consolidated balance sheets. The Company enters into these transactions to meet the financing needs of its customers. These transactions include commitments to extend credit and standby letters of credit, which involve to varying degrees elements of credit risk and interest rate risk in excess of the amounts recognized in the consolidated balance sheets. The Company uses the same credit policies in making commitments and conditional obligations as it does for on balance sheet instruments.

The contractual amounts of financial instruments with off-balance sheet risk are as follows:

	September 30, 2018		December 31, 2017	
	Fixed Rate	Variable Rate	Fixed Rate	Variable Rate
	(Dollars in thousands)			
Commitments to extend credit	\$ 349,084	\$ 347,204	\$ 369,573	\$ 250,467
Standby letters of credit	12,671	2,003	15,445	1,725
Total	\$ 361,755	\$ 349,207	\$ 385,018	\$ 252,192

Commitments to make loans are generally made for an approval period of 120 days or fewer. As of September 30, 2018, the funded fixed rate loan commitments had interest rates ranging from 1.80% to 7.75% with a weighted average maturity and rate of 3.32 years and 5.34%, respectively.

Litigation

From time to time, the Company is subject to claims and litigation arising in the ordinary course of business. In the opinion of management, the Company is not party to any legal proceedings the resolution of which it believes would have a material adverse effect on the Company's business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels. However, one or more unfavorable outcomes in any claim or litigation against the Company could have a material adverse effect for the period in which such claim or litigation is resolved. In addition, regardless of their merits or their ultimate outcomes, such matters are costly, divert management's attention and may materially adversely affect the Company's reputation, even if resolved in its favor. The Company intends to defend itself vigorously against any future claims or litigation.

12. REGULATORY CAPITAL MATTERS

The Company and the Bank are subject to various regulatory capital requirements administered by the federal banking agencies. Capital adequacy guidelines, and for banks, prompt corrective action regulations, involve quantitative measures of assets, liabilities and certain off balance sheet items calculated under regulatory accounting practices. Capital amounts and classifications are also subject to qualitative judgments by regulators about components, risk weightings and other factors. Failure to meet minimum capital requirements can cause regulators to initiate actions that, if undertaken, could have a direct material effect on the Company's consolidated financial statements. The final rules implementing Basel Committee on Banking Supervision's capital guideline for U.S. Banks (Basel III Rules) became effective for the Company on January 1, 2015 with full compliance with all of the requirements being phased in over a multi-year schedule, and fully phased in by January 1, 2019. Starting in January 2016, the implementation of the capital conservation buffer was effective for the Company starting at the 0.625% level and increasing 0.625% each year thereafter, until it reaches 2.5% on January 1, 2019. Management believes as of September 30, 2018 and December 31, 2017 the Company and the Bank met all capital adequacy requirements to which they were then subject.

Prompt corrective action regulations provide five classifications: well capitalized, adequately capitalized, undercapitalized, significantly undercapitalized, and critically undercapitalized, although these terms are not used to represent overall financial condition. If less than well capitalized, regulatory approval is required to accept brokered deposits. If undercapitalized, capital distributions are limited, as is asset growth and expansion, and capital restoration plans are required.

13. EARNINGS PER COMMON SHARE

Diluted earnings per common share is computed using the weighted-average number of common shares determined for the basic earnings per common share computation plus the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock using the treasury stock method. Outstanding stock options issued by the Company represent the only dilutive effect reflected in diluted weighted average shares. Restricted shares are considered outstanding at the date of grant, accounted for as participating securities and included in basic and diluted weighted average common shares outstanding.

There were no antidilutive shares as of September 30, 2018. Stock options for 33 thousand shares were not considered in computing diluted earnings per common share as of September 30, 2017 because they were antidilutive.

15. SUBSEQUENT EVENT

On October 1, 2018, Allegiance completed the previously announced acquisition of Post Oak Bancshares, Inc. ("Post Oak"), the holding company of Post Oak Bank, N.A. Post Oak operated thirteen (13) banking locations: twelve (12) located throughout the greater Houston metropolitan area and one in Beaumont, just outside of the Houston metropolitan area. Allegiance incurred approximately \$821 thousand in acquisition and merger-related expenses related to the acquisition during the nine months ended September 30, 2018.

As of September 30, 2018, Post Oak Bank, N.A. reported total assets of \$1.49 billion, total loans of \$1.12 billion and total deposits of \$1.29 billion. Under the terms of the acquisition agreement, Allegiance issued 8,402,010 shares of common stock plus \$20 thousand of cash in lieu of any resulting fractional shares. Additionally, all outstanding Post Oak options were assumed by Allegiance and converted using the 0.7017 exchange ratio to 299,352 options at a weighted average exercise price of \$12.83 per option. Based on the \$41.70 per share closing price of Allegiance common stock on September 28, 2018, the total transaction value was approximately \$359.0 million. The acquisition of Post Oak will be accounted for under the acquisition method of accounting in accordance with ASC Topic 805, Business Combinations. Allegiance's assessment of the fair value of assets acquired and liabilities assumed as of the acquisition date is incomplete at the time of this filing; therefore, certain disclosures have been omitted. Allegiance expects to recognize goodwill in this transaction, which is expected to be nondeductible for tax purposes.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Except where the context otherwise requires or where otherwise indicated, in this Quarterly Report on Form 10-Q the terms "we," "us," "our," "Company" and "our business" refer to Allegiance Bancshares, Inc. and our wholly-owned banking subsidiary, Allegiance Bank, a Texas banking association, and the terms "Allegiance Bank" or the "Bank" refer to Allegiance Bank. In this Quarterly Report on Form 10-Q, we refer to the Houston-The Woodlands-Sugar Land metropolitan statistical area as the "Houston metropolitan area."

Cautionary Notice Regarding Forward-Looking Statements

Statements and financial discussion and analysis contained in this Quarterly Report on Form 10-Q that are not historical facts are forward-looking statements and are made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. We also may make forward-looking statements in our other documents filed with or furnished to the SEC. In addition, our senior management may make forward-looking statements orally to investors, analysts, representatives of the media and others. Statements preceded by, followed by or that otherwise include the words "believes," "expects," "anticipates," "intends," "projects," "estimates," "plans" and similar expressions or future or conditional verbs such as "will," "should," "would," "may" and "could" are generally forward-looking in nature and not historical facts, although not all forward-looking statements include the foregoing. Forward-looking statements are based on assumptions and involve a number of risks and uncertainties, many of which are beyond our control. Many possible events or factors could affect our future financial results and performance and could cause such results or performance to differ materially from those expressed in our forward-looking statements.

While there is no assurance that any list of risks and uncertainties or risk factors is complete, below are certain factors which could cause our actual results to differ from those in our forward-looking statements:

- risks related to the concentration of our business in the Houston metropolitan area, including risks associated with volatility or decreases in oil and gas prices or prolonged periods of lower oil and gas prices;
- general market conditions and economic trends nationally, regionally and particularly in the Houston metropolitan area;
- our ability to retain executive officers and key employees and their customer and community relationships;
- our ability to recruit and retain successful bankers that meet our expectations in terms of customer and community relationships and profitability;
- risks related to our strategic focus on lending to small to medium-sized businesses;
- our ability to implement our growth strategy, including through the identification of acquisition candidates that will be accretive to our financial condition and results of operations, as well as permitting decision-making authority at the branch level;
- risks related to any businesses we acquire in the future, including exposure to potential asset and credit quality risks and unknown or contingent liabilities, the time and costs associated with integrating systems, technology platforms, procedures and personnel, the need for additional capital to finance such transactions and possible failures in realizing the anticipated benefits from such acquisitions;
- risks associated with our owner-occupied commercial real estate loan and other commercial real estate loan portfolios, including the risks inherent in the valuation of the collateral securing such loans;
- risks associated with our commercial and industrial loan portfolio, including the risk for deterioration in value of the general business assets that generally secure such loans;
- the accuracy and sufficiency of the assumptions and estimates we make in establishing reserves for potential loan losses and other estimates;
- risk of deteriorating asset quality and higher loan charge-offs, as well as the time and effort necessary to resolve nonperforming assets;

Table of Contents

- potential changes in the prices, values and sales volumes of commercial and residential real estate securing our real estate loans;
- changes in market interest rates that affect the pricing of our loans and deposits and our net interest income;
- potential fluctuations in the market value and liquidity of the securities we hold for sale;
- risk of impairment of investment securities, goodwill, other intangible assets or deferred tax assets;
- the effects of competition from a wide variety of local, regional, national and other providers of financial, investment and insurance services, which may adversely affect our pricing and terms;
- risks associated with negative public perception of the Company;
- our ability to maintain an effective system of disclosure controls and procedures and internal controls over financial reporting;
- risks associated with fraudulent and negligent acts by our customers, employees or vendors;
- our ability to keep pace with technological change or difficulties when implementing new technologies;
- risks associated with system failures or failures to protect against cybersecurity threats, such as breaches of our network security;
- our ability to comply with privacy laws and properly safeguard personal, confidential or proprietary information;
- risks associated with data processing system failures and errors;
- potential risk of environmental liability related to owning or foreclosing on real property;
- the institution and outcome of litigation and other legal proceeding against us or to which we become subject;
- our ability to maintain adequate liquidity and to raise necessary capital to fund our acquisition strategy and operations or to meet increased minimum regulatory capital levels;
- our ability to comply with various governmental and regulatory requirements applicable to financial institutions;
- the impact of recent and future legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators, such as the further implementation of the Dodd-Frank Act;
- governmental monetary and fiscal policies, including the policies of the Federal Reserve;
- our ability to comply with supervisory actions by federal and state banking agencies;
- changes in the scope and cost of FDIC insurance and other coverage;
- systemic risks associated with the soundness of other financial institutions;
- the effects of war or other conflicts, acts of terrorism (including cyberattacks) or other catastrophic events, including storms, droughts, tornadoes and flooding, that may affect general economic conditions; and
- other risks and uncertainties listed from time to time in our reports and documents filed with the SEC.

Further, these forward-looking statements speak only as of the date on which they were made and we undertake no obligation to update or revise any forward-looking statements to reflect events or circumstances after the date on which any such statement is made or to reflect the occurrence of unanticipated events, unless required to do so under the federal securities laws. Other factors not identified above, including those described under the headings "Risk Factors", "Quantitative and Qualitative Disclosures about Market Risk" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in this Quarterly Report on Form 10-Q, in our Quarterly Report on Form 10-Q for the quarter ended June 30, 2018 and in our Annual Report on Form 10-K for the year ended December 31, 2017 may also cause actual results to differ materially from those described in our forward-looking statements. Most of these factors are difficult to anticipate and are generally beyond our control. You should consider these factors in connection with considering any forward-looking statements that may be made by us.

Overview

We generate most of our revenues from interest income on loans, service charges on customer accounts and interest income from investments in securities. We incur interest expense on deposits and other borrowed funds and noninterest expenses such as salaries and employee benefits and occupancy expenses. Net interest income is the difference between interest income on earning assets such as loans and securities and interest expense on liabilities such as deposits and borrowings that are used to fund those assets. Net interest income is our largest source of revenue. To evaluate net interest income, we measure and monitor (1) yields on our loans and other interest-earning assets, (2) the interest expenses of our deposits and other funding sources, (3) our net interest spread and (4) our net interest margin. Net interest spread is the difference between rates earned on interest-earning assets and rates paid on interest-bearing liabilities. Net interest margin is calculated as net interest income divided by average interest-earning assets. Because noninterest-bearing sources of funds, such as noninterest-bearing deposits and shareholders' equity, also fund interest-earning assets, net interest margin includes the benefit of these noninterest-bearing sources.

Our net interest income is affected by changes in the amount and mix of interest-earning assets and interest-bearing liabilities, referred to as a "volume change." Periodic changes in the volume and types of loans in our loan portfolio are affected by, among other factors, economic and competitive conditions in Texas and specifically in the Houston metropolitan area, as well as developments affecting the real estate, technology, financial services, insurance, transportation, manufacturing and energy sectors within our target market and throughout the state of Texas.

Our net interest income is also affected by changes in yields earned on interest-earning assets and rates paid on interest-bearing deposits and other borrowed funds, referred to as a "rate change." Fluctuations in market interest rates are driven by many factors, including governmental monetary policies, inflation, deflation, macroeconomic developments, changes in unemployment, the money supply, political and international conditions and conditions in domestic and foreign financial markets.

Our objective is to grow and strengthen our community banking franchise by deploying our super-community banking strategy and pursuing select strategic acquisitions in the Houston metropolitan area. We have positioned ourselves to be a leading provider of personalized commercial banking services by emphasizing the strength and capabilities of local bank office management and by providing superior customer service. We have made the strategic decision to focus on the Houston metropolitan area because of our deep roots and experience operating through a variety of economic cycles in this large and vibrant market.

Super-community banking strategy. Our super-community banking strategy emphasizes local delivery of the excellent customer service associated with community banking combined with the products, efficiencies and scale associated with larger banks. By empowering our personnel to make certain business decisions at a local level in order to respond quickly to customers' needs, we are able to establish and foster strong relationships with customers through superior service. We operate full-service bank offices and employ lenders with strong underwriting credentials who are authorized to make loan and underwriting decisions up to prescribed limits at the bank office level. We support bank office operations with a centralized credit approval process for larger credit relationships, loan operations, information technology, core data processing, accounting, finance, treasury and treasury management support, deposit operations and executive and board oversight. We emphasize lending to and banking with small to medium-sized businesses, with which we believe we can establish stronger relationships through excellent service and provide lending that can be priced on terms that are more attractive to us than would be achieved by lending to larger businesses. We believe this approach produces a clear competitive advantage by delivering an extraordinary customer experience and fostering a culture dedicated to achieving both superior external and internal service levels.

We plan to continue to emphasize the super-community banking strategy to organically grow our presence in the Houston metropolitan area through:

- increasing the productivity of existing bankers, as measured by loans, deposits and fee income per banker, while enhancing profitability by leveraging our existing operating platform;
- focusing on local and individualized decision-making, allowing us to provide customers with rapid decisions on loan requests, which we believe allows us to effectively compete with larger financial institutions;
- identifying and hiring additional seasoned bankers in the Houston metropolitan area who will thrive within our super-community banking model, and opening additional branches where we are able to attract seasoned bankers; and
- developing new products designed to serve the increasingly diversified Houston economy, while preserving our strong culture of risk management.

Select strategic acquisitions. We intend to continue to expand our market position in the Houston metropolitan area through organic growth, including the development of de novo branch locations, and a disciplined acquisition strategy. We focus on like-minded community banks with similar lending strategies to our own when evaluating acquisition opportunities. We believe that our management's experience in assessing, executing and integrating target institutions will allow us to capitalize on acquisition opportunities.

Critical Accounting Policies

Our accounting policies are integral to understanding our results of operations. Our accounting policies are described in detail in Note 1 to our Annual Report on Form 10-K for the year ended December 31, 2017. We believe that of our accounting policies, the following may involve a higher degree of judgment and complexity:

Securities

Debt securities are classified as available for sale when they might be sold before maturity. Securities available for sale are carried at fair value. Unrealized gains and losses are excluded from earnings and reported, net of tax, as a separate component of shareholders' equity until realized. Securities within the available for sale portfolio may be used as part of our asset/liability strategy and may be sold in response to changes in interest rate risk, prepayment risk or other similar economic factors.

Interest earned on these assets is included in interest income. Interest income includes amortization of purchase premium or discount. Premiums and discounts on securities are amortized on the level-yield method, except for mortgage backed securities where prepayments are anticipated. Gains and losses on sales are recorded on the trade date and determined using the specific identification method.

Management evaluates debt securities for other-than-temporary impairment ("OTTI") on at least a quarterly basis, and more frequently when economic or market conditions warrant such an evaluation. For securities in an unrealized loss position, management considers the extent and duration of the unrealized loss and the financial condition and near-term prospects of the issuer. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: (1) OTTI related to credit loss, which must be recognized in the income statement, and (2) OTTI related to other factors, which is recognized in other comprehensive income, net of applicable taxes. The credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. The previous amortized cost basis less the OTTI recognized in earnings becomes the new amortized cost basis of the security.

Nonperforming and Past Due Loans

Loans are placed on nonaccrual status when payment in full of principal or interest is not expected or upon which principal or interest has been in default for a period of 90 days or more unless the asset is both well secured and in the process of collection. If the decision is made to continue accruing interest on the loan, periodic reviews are made to confirm the accruing status of the loan. Nonaccrual loans and loans past due 90 days include both smaller balance homogeneous loans that are collectively evaluated for impairment and individually classified impaired loans.

When available information confirms that specific loans, or portions thereof, are uncollectible, these amounts are charged off against the allowance. All loan types are considered delinquent after 30 days past due and are typically charged off or charged down no later than 120 days past due, with consideration of, but not limited to, the following criteria in determining the need and optional timing of the charge-off or charge-down: (1) the Bank is in the process of repossession or foreclosure and there appears to be a likely deficiency, (2) the collateral securing the loan has been sold and there is an actual deficiency, (3) the Bank is proceeding with lengthy legal action to collect its balance, (4) the borrower is unable to be located or (5) the borrower has filed bankruptcy. Events requiring charge-offs occur when a shortfall is identified between the recorded investment in the loan and the underlying value of the collateral.

Allowance for Loan Losses

The allowance for loan losses is a valuation allowance that is established through charges to income in the form of a provision for loan losses. The amount of the allowance for loan losses is affected by the following: (1) charge-offs of loans that decrease the allowance, (2) subsequent recoveries on loans previously charged off that increase the allowance and (3) provisions for loan losses charged to income that increase the allowance.

Throughout the year, management estimates the probable incurred losses in the loan portfolio to determine if the allowance for loan losses is adequate to absorb such losses. The allowance for loan losses consists of specific and general components. The specific component relates to loans that are individually classified as impaired. We follow a loan review program to evaluate the credit risk in the loan portfolio. Loans that have been identified as impaired are reviewed on a quarterly basis in order to determine whether a specific reserve is required. The general component covers non-impaired loans and is based on industry and our specific historical loan loss experience, volume, growth and composition of the loan portfolio, the evaluation of our loan portfolio through our internal loan review process, general current economic conditions both internal and external to us that may affect the borrower's ability to pay, value of collateral and other qualitative relevant risk factors. Based on a review of these estimates, we adjust the allowance for loan losses to a level determined by management to be adequate. Estimates of loan losses are inherently subjective as they involve an exercise of judgment.

Our allowance for loan losses, both in dollars and as a percentage of total loans, is impacted by acquisition accounting. As part of acquisition accounting, acquired loans are initially recognized at fair value with no corresponding allowance for loan losses. Initial fair value of the loans includes consideration of expected credit losses.

Loans for which the terms have been modified, and for which the borrower is experiencing financial difficulties, are considered troubled debt restructurings and therefore classified as impaired. Subsequent to identification as a troubled debt restructuring, such loans are then evaluated for impairment on an individual basis whereby we determine the amount of reserve in accordance with the accounting policy for the impaired loans as part of our allowance for loan losses calculation. If a loan is impaired, a specific valuation allowance is allocated, if necessary, so that the loan is reported net, at the present value of estimated future cash flows using the loan's existing rate or at the fair value of collateral if repayment is expected solely from the collateral.

Goodwill

Goodwill resulting from business combinations is generally determined as the excess of the fair value of the consideration transferred, plus the fair value of any noncontrolling interests in the acquiree, over the fair value of the net assets acquired and liabilities assumed as of the acquisition date. Goodwill is assessed annually for impairment or when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. Goodwill acquired in a purchase business combination that is determined to have an indefinite useful life, is not amortized, but tested for impairment. We perform our annual impairment test on October 1st. Goodwill is the only intangible asset with an indefinite life on our balance sheet.

Recently Issued Accounting Pronouncements

We have evaluated new accounting pronouncements that have recently been issued and have determined that there are no new accounting pronouncements that should be described in this section that will impact the Company's operations, financial condition or liquidity in future periods. Refer to Note 1 of the Company's audited consolidated financial statements for a discussion of recent accounting pronouncements that have been adopted by the Company or that will require enhanced disclosures in the Company's financial statements in future periods.

Results of Operations

Net income was \$8.9 million, or \$0.65 per diluted share, for the third quarter 2018 compared to \$3.0 million, or \$0.22 per diluted share, for the third quarter 2017. Annualized returns on average assets and average equity were 1.18% and 10.80%, respectively, compared to 0.43% and 3.90%, respectively, for the three months ended September 30, 2018 and 2017, respectively. The efficiency ratio increased to 63.95% for the third quarter 2018 from 62.14% for the third quarter 2017. The efficiency ratio is calculated by dividing total noninterest expense by the sum of net interest income plus noninterest income, excluding net gains and losses on the sale of loans, securities and assets. Additionally, taxes and provision for loan losses are not part of this calculation.

Net income was \$24.1 million, or \$1.77 per diluted share, for the nine months ended September 30, 2018 compared to \$14.4 million, or \$1.07 per diluted share, for the nine months ended September 30, 2017. The nine months ended September 30, 2018 results include \$1.8 million and \$821 thousand of core system conversion and merger-related expenses, respectively. Annualized returns on average assets and average equity were 1.10% and 10.16%, respectively, for the nine months ended September 30, 2018 compared to 0.73% and 6.55%, respectively, for the nine months ended September 30, 2017. The efficiency ratio increased to 65.52% for the nine months ended September 30, 2018 compared to 62.97% for the nine months ended September 30, 2017.

Net Interest Income

Three months ended September 30, 2018 compared with three months ended September 30, 2017. Net interest income before the provision for loan losses for the three months ended September 30, 2018 was \$28.0 million compared with \$27.0 million for the three months ended September 30, 2017, an increase of \$1.0 million, or 3.8%. The increase in net interest income was primarily due to the increase in average interest-earning assets as a result of organic loan growth partially offset by increased interest expense on interest-bearing liabilities driven in part by the subordinated debt that was issued in December 2017.

Interest income was \$35.3 million for the three months ended September 30, 2018, an increase of \$4.4 million, or 14.4%, compared with the three months ended September 30, 2017, primarily due to an increase in interest income and fees on loans as a result of an increase of \$243.4 million, or 11.4%, in average loans for the same periods. Additionally, the average yield on loans increased to 5.49% for the three months ended September 30, 2018 from 5.30% for the same period in 2017.

Interest expense was \$7.3 million for the three months ended September 30, 2018, an increase of \$3.4 million, or 87.0%, compared to the three months ended September 30, 2017. This increase was primarily due to the subordinated debt issuance in December 2017 and higher funding costs on FHLB borrowings and certificates of deposit. The cost of average interest-bearing liabilities increased to 153 basis points for the three months ended September 30, 2018 compared to 93 basis points for the same period in 2017. Additionally, average interest-bearing liabilities increased \$229.8 million, or 13.8%, for the three months ended September 30, 2018 compared to the three months ended September 30, 2017. The increase in average interest-bearing liabilities for the three months ended September 30, 2018 compared to the three months ended September 30, 2017 was primarily due to the increase in average interest-bearing deposits of \$153.2 million and the increase in average subordinated debt of \$39.5 million. The increase in average interest-bearing deposits for the three months ended September 30, 2018 compared to the three months ended September 30, 2017 was primarily due to the increase in average certificates and other time deposits of \$142.2 million, or 18.9%.

Tax equivalent net interest margin, defined as net interest income adjusted for tax-free income divided by average interest-earning assets, for the three months ended September 30, 2018 was 4.10%, a decrease of 27 basis points compared to 4.37% for the three months ended September 30, 2017 primarily due to interest expense on the subordinated debt issuance and certificates of deposit and a reduction in the tax equivalent adjustment due to tax reform. The average yield on interest-earning assets and the average rate paid on interest-bearing liabilities for the third quarter 2018 increased over the same period in 2017. The average yield on interest-earning assets, 5.12%, and the average rate paid on interest-bearing liabilities, 1.53%, as of September 30, 2018, were primarily impacted by changes in market interest rates as well as changes in the volume and relative mix of the underlying assets and liabilities. Tax equivalent adjustments to net interest margin are the result of increasing income from tax-free securities by an amount equal to the taxes that would have been paid if the income were fully taxable based on a 21% and 35% federal tax rate for the three months ended September 30, 2018 and 2017, respectively, thus making tax-exempt yields comparable to taxable asset yields.

[Table of Contents](#)

The following table presents, for the periods indicated, the total dollar amount of average balances, interest income from average interest-earning assets and the annualized resultant yields, as well as the interest expense on average interest-bearing liabilities, expressed in both dollars and rates. Any nonaccruing loans have been included in the table as loans carrying a zero yield.

Net interest income and margin (tax equivalent) ⁽²⁾		<u>\$ 28,292</u>	4.10%		<u>\$ 27,748</u>	4.37%

(1) The net interest margin is equal to annualized net interest income divided by average interest-earning assets.

(2) In order to make pretax income and resultant yields on tax-exempt investments and loans comparable to those on taxable investments and loans, a tax-equivalent adjustment has been computed using a federal income tax rate of 21% and 35% for the three months ended September 30, 2018 and 2017, respectively, and other applicable effective tax rates.

[Table of Contents](#)

Nine months ended September 30, 2018 compared with nine months ended September 30, 2017. Net interest income before the provision for loan losses for the nine months ended September 30, 2018 was \$82.7 million compared with \$76.2 million for the nine months ended September 30, 2017, an increase of \$6.5 million, or 8.5%. The increase in net interest income was primarily due to organic loan growth partially offset by the increased interest expense on interest-bearing liabilities.

Interest income was \$101.9 million for the nine months ended September 30, 2018, an increase of \$14.5 million, or 16.6%, compared with the nine months ended September 30, 2017, primarily due to an increase in interest income and fees on loans due to an increase in average loans of \$281.5 million, or 13.8%. Additionally, the average yield on loans increased to 5.47% for the nine months ended September 30, 2018 from 5.29% for the same period in 2017.

Interest expense was \$19.2 million for the nine months ended September 30, 2018, an increase of \$8.0 million, or 71.7%, compared to the nine months ended September 30, 2017. This increase was primarily due to the subordinated debt issuance and rising expenses associated with higher costs on FHLB borrowings and certificates of deposit. The cost of average interest-bearing liabilities increased to 136 basis points for the nine months ended September 30, 2018 compared to 89 basis points for the same period in 2017. Additionally, average interest-bearing liabilities increased \$196.2 million, or 11.6%, for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. The increase in average interest-bearing liabilities was primarily due to an increase in average interest-bearing deposits of \$173.3 million, or 12.4%, and the increase in average subordinated debt of \$39.5 million for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. The increase in average interest-bearing deposits for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017 was primarily due to the increase in average certificates and other time deposits of \$100.1 million, or 13.5%.

Tax equivalent net interest margin for the nine months ended September 30, 2018 was 4.17%, a decrease of 17 basis points compared to 4.34% for the nine months ended September 30, 2017 primarily due to the increase in interest expense on the subordinated debt issuance and certificates of deposit and a reduction in the tax equivalent adjustment due to tax reform. The average yield on interest-earning assets of 5.09% and the average rate paid on interest-bearing liabilities of 1.36% for the nine months ended September 30, 2018 increased over the same period in 2017 primarily due to changes in market interest rates as well as changes in the volume and relative mix of the underlying assets and liabilities. Tax equivalent adjustments to net interest margin are the result of increasing income from tax-free securities by an amount equal to the taxes that would have been paid if the income were fully taxable based on a 21% and 35% federal tax rate for the nine months ended September 30, 2018 and 2017, respectively, thus making tax-exempt yields comparable to taxable asset yields.

Provision for Loan Losses

Our allowance for loan losses is established through charges to income in the form of the provision in order to bring our allowance for loan losses to a level deemed appropriate by management. The allowance for loan losses was \$23.6 million at September 30, 2018 and December 31, 2017, representing 0.97% and 1.04% of total loans, respectively. We did not record a provision for loan losses for the quarter ended September 30, 2018. We recorded a \$6.9 million provision for loan losses for the quarter ended September 30, 2017. We recorded a \$1.3 million provision for loan losses for the nine months ended September 30, 2018 and an \$11.3 million provision for the nine months ended September 30, 2017. The decreases in the provision for the three and nine months ended September 30, 2018 compared to the three and nine months ended September 30, 2017 were primarily due to lower net charge-offs during the nine months ended September 30, 2018 compared to the same period in the 2017 and the reduction and elimination of our Hurricane Harvey reserve that was created in the third quarter 2017.

Noninterest Income

Our primary sources of noninterest income are service charges on deposit accounts, nonsufficient funds fees, rebates from correspondent banks and debit and ATM card income. Noninterest income does not include loan origination fees, which are recognized over the life of the related loan as an adjustment to yield using the interest method.

Three months ended September 30, 2018 compared with three months ended September 30, 2017. Noninterest income totaled \$1.9 million for the three months ended September 30, 2018 compared with \$1.5 million for the same period in 2017, an increase of \$468 thousand, or 32.1%.

Nine months ended September 30, 2018 compared with nine months ended September 30, 2017. Noninterest income totaled \$5.4 million for the nine months ended September 30, 2018 compared with \$4.3 million for the same period in 2017, an increase of \$1.1 million, or 25.7%.

The following table presents, for the periods indicated, the major categories of noninterest income:

	For the Three Months Ended September 30,		Increase (Decrease)	For the Nine Months Ended September 30,		Increase (Decrease)
	2018	2017		2018	2017	
	(Dollars in thousands)					
Nonsufficient funds fees	\$ 175	\$ 144	\$ 31	\$ 565	\$ 527	\$ 38
Service charges on deposit accounts	177	204	(27)	506	604	(98)
Loss on sale of securities	—	(12)	12	—	(12)	12
Gain on sale of other real estate	—	—	—	1	—	1
Bank owned life insurance income	137	146	(9)	416	440	(24)
Debit card and ATM card income	300	226	74	858	664	194
Rebate from correspondent bank	613	370	243	1,621	939	682
Other ⁽¹⁾	526	382	144	1,412	1,116	296
Total noninterest income	\$ 1,928	\$ 1,460	\$ 468	\$ 5,379	\$ 4,278	\$ 1,101

(1) Other includes wire transfer and letter of credit fees, among other items.

Noninterest Expense

Three months ended September 30, 2018 compared with three months ended September 30, 2017. Noninterest expense was \$19.2 million for the three months ended September 30, 2018 compared to \$17.7 million for the three months ended September 30, 2017, an increase of \$1.5 million, or 8.4%. This increase over the third quarter 2017 was primarily due to salaries and benefits and data processing and software amortization expenses incurred to support strategic growth initiatives, partially offset by a decrease in professional fees.

Nine months ended September 30, 2018 compared with nine months ended September 30, 2017. Noninterest expense totaled \$57.7 million for the nine months ended September 30, 2018 compared with \$50.7 million for the same period in 2017, an increase of \$7.1 million, or 13.9%. This increase over the nine months ended September 30, 2017 was primarily due to expenses related to the core system conversion of \$1.8 million and acquisition and merger-related expenses of \$821 thousand during the nine months ended September 30, 2018.

The following table presents, for the periods indicated, the major categories of noninterest expense:

	For the Three Months Ended September 30,		Increase (Decrease)	For the Nine Months Ended September 30,		Increase (Decrease)
	2018	2017		2018	2017	
	(Dollars in thousands)					
Salaries and employee benefits ⁽¹⁾	\$ 12,965	\$ 11,580	\$ 1,385	\$ 38,537	\$ 32,557	\$ 5,980
Net occupancy and equipment	1,281	1,325	(44)	3,886	4,054	(168)
Depreciation	490	427	63	1,330	1,225	105
Data processing and software amortization	1,226	783	443	3,635	2,197	1,438
Professional fees	303	822	(519)	1,339	2,704	(1,365)
Regulatory assessments and FDIC insurance	505	582	(77)	1,533	1,740	(207)
Core deposit intangibles amortization	195	195	—	586	586	—
Communications	262	251	11	769	731	38
Advertising	351	302	49	1,021	853	168
Acquisition and merger-related expenses	196	—	196	821	—	821
Other real estate expense	42	59	(17)	185	249	(64)
Printing and supplies	74	83	(9)	259	210	49
Other	1,274	1,267	7	3,840	3,580	260
Total noninterest expense	\$ 19,164	\$ 17,676	\$ 1,488	\$ 57,741	\$ 50,686	\$ 7,055

(1) Total salaries and employee benefits includes \$380 thousand and \$497 thousand for the three months ended September 30, 2018 and 2017, respectively, and \$1.2 million and \$1.3 million for the nine months ended September 30, 2018 and 2017, respectively, in stock based compensation expense.

Salaries and employee benefits. Salaries and benefits increased \$1.4 million, or 12.0%, for the three months ended September 30, 2018 compared to the same period in 2017 and increased \$6.0 million, or 18.4%, for the nine months ended September 30, 2018 compared to the nine months ended September 30, 2017. These increase were primarily attributable to additional employees hired to support our growth.

Data Processing and software amortization. Data processing and software amortization increased \$443 thousand, or 56.6%, for the three months ended September 30, 2018 compared to the same period in 2017 and increased \$1.4 million, or 65.5%, for the nine months ended September 30, 2018 compared to the same period in 2017 primarily due to expenses incurred to complete our core system conversion during 2018.

Acquisition and merger-related expenses. Acquisition and merger-related expenses are primarily legal, advisory and accounting fees associated with the acquisition of Post Oak Bancshares, Inc. (“Post Oak”). Acquisition and merger-related expenses also include data processing conversion costs and contract termination costs. The increase in expenses for the three and nine months ended September 30, 2018 over the respective periods in 2017 is directly related to the Post Oak acquisition activity in those periods.

Efficiency Ratio

The efficiency ratio is a supplemental financial measure utilized in management’s internal evaluation of our performance and is not calculated based on generally accepted accounting principles. A GAAP-based efficiency ratio is calculated by dividing total noninterest expense, excluding credit loss provisions, by net interest income plus total noninterest income, as shown in the Consolidated Statements of Income. We calculate our efficiency ratio by excluding from noninterest income the net gains and losses on the sale of securities, which can vary widely from period to period. Additionally, taxes and provision for loan losses are not included in this calculation. An increase in the efficiency ratio indicates that more resources are being utilized to generate the same volume of income and/or being invested to generate future income, while a decrease would indicate a more efficient allocation of resources. Our efficiency ratio was 63.95% and 65.52% for the three and nine months ended September 30, 2018, respectively, compared to 62.14% and 62.97% for the three and nine months ended September 30, 2017, respectively.

We monitor the efficiency ratio in comparison with changes in our total assets and loans, and we believe that maintaining or reducing the efficiency ratio during periods of growth over the long-term will demonstrate the scalability of our operating platform. We expect to continue to benefit from our scalable platform in future periods as we continue to monitor overhead expenses necessary to support our growth.

Income Taxes

The amount of federal and state income tax expense is influenced by the amount of pre-tax income, the amount of tax-exempt income and the amount of other nondeductible expenses. Income tax expense increased \$1.0 million, or 116.6%, to \$1.9 million for the three months ended September 30, 2018 compared with \$887 thousand for the same period in 2017. Income tax expense increased \$811 thousand, or 19.6%, to \$4.9 million for the nine months ended September 30, 2018 compared with \$4.1 million for the same period in 2017. Our effective tax rates were 17.8% and 17.0% for the three and nine months ended September 30, 2018, respectively, compared to 22.9% and 22.3% for the three and nine months ended September 30, 2017, respectively. Our effective tax rate decreased for the three and nine months ended September 30, 2018 compared to the same periods in 2017 primarily due to the reduction in the U.S. federal statutory income tax rate from 35% to 21% under the Tax Act enacted on December 22, 2017.

Financial Condition

Loan Portfolio

At September 30, 2018, total loans were \$2.44 billion, an increase of \$170.1 million, or 7.5%, compared with December 31, 2017, primarily due to organic growth within our loan portfolio.

Total loans as a percentage of deposits were 100.3% and 102.6% as of September 30, 2018 and December 31, 2017, respectively. Total loans as a percentage of assets were 80.4% and 79.4% as of September 30, 2018 and December 31, 2017, respectively.

Lending activities originate from the efforts of our lenders, with an emphasis on lending to small to medium-sized businesses and companies, professionals and individuals located in the Houston metropolitan area.

The following table summarizes our loan portfolio by type of loan as of the dates indicated:

	September 30, 2018		December 31, 2017	
	Amount	Percent	Amount	Percent
	(Dollars in thousands)			
Commercial and industrial	\$ 458,434	18.8%	\$ 457,129	20.1%
Mortgage warehouse	48,876	2.0%	69,456	3.1%
Real estate:				
Commercial real estate (including multi-family residential)	1,161,992	47.7%	1,080,247	47.5%
Commercial real estate construction and land development	298,916	12.2%	243,389	10.7%
1-4 family residential (including home equity)	344,342	14.1%	301,219	13.3%
Residential construction	117,740	4.8%	109,116	4.8%
Consumer and other	10,626	0.4%	10,320	0.5%
Total loans	2,440,926	100.0%	2,270,876	100.0%
Allowance for Loan Losses	(23,586)		(23,649)	
Loans, net	\$ 2,417,340		\$ 2,247,227	

The principal categories of our loan portfolio are discussed below:

Commercial and Industrial. We make commercial and industrial loans in our market area that are underwritten primarily on the basis of the borrower's ability to service the debt from income. Our commercial and industrial loan portfolio increased by \$1.3 million, or 0.3%, to \$458.4 million as of September 30, 2018 from \$457.1 million as of December 31, 2017.

Our exposure to oil and gas exploration and production companies is roughly 2.4% of our total loan portfolio as of September 30, 2018. We define these customers as those on whom the prices of oil and gas have a significant operational or financial impact. These loans carry an overall allowance of 3.8% at September 30, 2018. The collateral on these loans includes industrial commercial real estate, working capital assets, machining equipment, drilling equipment, general industrial equipment, vehicles, airplanes, ranch property, insurance policies, notes receivable and a hotel. In addition, these loans are all personally guaranteed by the owners of the borrower.

Mortgage Warehouse. We make loans to unaffiliated mortgage loan originators collateralized by mortgage promissory notes which are segregated in our mortgage warehouse portfolio. These promissory notes originated by our mortgage warehouse customers carry terms and conditions as would be expected in the competitive permanent mortgage market and serve as collateral under a traditional mortgage warehouse arrangement whereby such promissory notes are warehoused under a revolving credit facility to allow for the end investor (or purchaser) of the note to receive a complete loan package and remit funds to the bank. For mortgage promissory notes secured by residential property, the warehouse time is normally 10 to 20 days. For mortgage promissory notes secured by commercial property, the warehouse time is normally 40 to 50 days. The funded balance of the mortgage warehouse portfolio can have significant fluctuation based upon market demand for the product, level of home sales and refinancing activity, market interest rates, and velocity of end investor processing times. Volumes of the portfolio tend to peak at the end of each month. Our mortgage warehouse portfolio decreased \$20.6 million, or 29.6%, to \$48.9 million as of September 30, 2018 from \$69.5 million at December 31, 2017.

Commercial Real Estate (Including Multi-Family Residential). We make loans collateralized by owner-occupied, nonowner-occupied and multi-family real estate to finance the purchase or ownership of real estate. As of September 30, 2018 and December 31, 2017, 53.0% and 51.4%, respectively, of our commercial real estate loans were owner-occupied. Our commercial real estate loan portfolio increased \$81.7 million, or 7.6%, to \$1.16 billion as of September 30, 2018 from \$1.08 billion as of December 31, 2017, as a result of organic loan growth. Included in our commercial real estate portfolio are multi-family residential loans. Our multi-family loans increased to \$83.6 million as of September 30, 2018 from \$67.2 million as of December 31, 2017. We had 106 multi-family loans with an average loan size of \$788 thousand as of September 30, 2018.

Commercial Real Estate Construction and Land Development. We make commercial real estate construction and land development loans to fund commercial construction, land acquisition and real estate development construction. Commercial real estate construction and land development loans increased \$55.5 million, or 22.8%, to \$298.9 million as of September 30, 2018 compared to \$243.4 million as of December 31, 2017 as a result of organic loan growth.

1-4 Family Residential (Including Home Equity). Our residential real estate loans include the origination of 1-4 family residential mortgage loans (including home equity and home improvement loans and home equity lines of credit) collateralized by owner-occupied residential properties located in our market area. Our residential real estate portfolio (including home equity) increased \$43.1 million, or 14.3%, to \$344.3 million as of September 30, 2018 from \$301.2 million as of December 31, 2017. The home equity, home improvement and home equity lines of credit portion of our residential real estate portfolio increased \$9.0 million, or 20.5%, to \$52.8 million as of September 30, 2018 from \$43.8 million as of December 31, 2017.

Residential Construction. We make residential construction loans to home builders and individuals to fund the construction of single-family residences with the understanding that such loans will be repaid from the proceeds of the sale of the homes by builders or with the proceeds of a mortgage loan. These loans are secured by the real property being built and are made based on our assessment of the value of the property on an as-completed basis. Our residential construction loans portfolio increased \$8.6 million, or 7.9% to \$117.7 million as of September 30, 2018 from \$109.1 million as of December 31, 2017.

Consumer and Other. Our consumer and other loan portfolio is made up of loans made to individuals for personal purposes. Our consumer and other loan portfolio increased \$306 thousand, or 3.0%, to \$10.6 million as of September 30, 2018 from \$10.3 million as of December 31, 2017.

Asset Quality

Nonperforming Assets

We have procedures in place to assist us in maintaining the overall quality of our loan portfolio. We have established underwriting guidelines to be followed by our officers and monitor our delinquency levels for any negative or adverse trends.

We had \$14.9 million and \$13.3 million in nonperforming loans as of September 30, 2018 and December 31, 2017, respectively.

The following table presents information regarding nonperforming assets as of the dates indicated.

	As of September 30, 2018	As of December 31, 2017
(Dollars in thousands)		
Nonaccrual loans:		
Commercial and industrial	\$ 6,258	\$ 6,437
Mortgage warehouse	—	—
Real estate:		
Commercial real estate (including multi-family residential)	5,006	6,110
Commercial real estate construction and land development	694	—
1-4 family residential (including home equity)	2,985	781
Residential construction	—	—
Consumer and other	—	—
Total nonaccrual loans	14,943	13,328
Accruing loans 90 or more days past due	—	—
Total nonperforming loans	14,943	13,328
Other real estate	1,801	365
Other repossessed assets	205	205
Total nonperforming assets	\$ 16,949	\$ 13,898
Restructured loans ⁽¹⁾	\$ 17,777	\$ 17,526
Nonperforming assets to total assets	0.56%	0.49%
Nonperforming loans to total loans	0.61%	0.59%

(1) Restructured loans represent the balance at the end of the respective period for those loans modified in a troubled debt restructuring that are not already presented as a nonperforming loan.

Potential problem loans are included in the loans that are classified as substandard and consist of accruing, restructured and impaired loans that are performing in accordance with contractual terms but for which management has concerns about the ability of an obligor to continue to comply with repayment terms because of the obligor's potential operating or financial difficulties. Management monitors these loans closely and reviews their performance on a regular basis. Potential problem loans contain potential weaknesses that could improve, persist or further deteriorate. At September 30, 2018 and December 31, 2017, we had \$19.7 million and \$17.9 million, respectively, in loans of this type which are not included in any of the nonaccrual or 90 days past due loan categories. At September 30, 2018, potential problem loans consisted of twenty-one credit relationships. Of the total outstanding balance at September 30, 2018, 40.4% related to one customer in the hospitality industry, 33.7% related to 9 customers in an energy-related industry, 12.5% related to one customer in the residential leasing industry, 6.1% related to one customer in the manufacturing industry, 3.6% related to three customers in the commercial services industry, 2.2% related to one customer in the convenience store industry, 1.0% related to one customer in the construction services industry, 0.3% related to three customers in the freight transportation industry and 0.2% related to one customer in the consumer services industry. Weakness in these organizations' operating performance, financial condition and borrowing base deficits for certain energy-related credits, among other factors, have caused us to heighten the attention given to these credits. As such, all of the loans identified as potential problem loans at September 30, 2018 were graded as substandard accruing loans. Potential problem loans impact the allocation of our allowance for loan losses as a result of the specific reserve assigned to each loan.

Allowance for Credit Losses

The allowance for loan losses is a valuation allowance that is established through charges to earnings in the form of a provision for loan losses. The amount of the allowance for loan losses is affected by the following: (1) charge-offs of loans that decrease the allowance, (2) subsequent recoveries on loans previously charged-off that increase the allowance and (3) provisions for loan losses charged to income that increase the allowance.

At September 30, 2018, our allowance for loan losses amounted to \$23.6 million, or 0.97%, of total loans compared with \$23.6 million, or 1.04%, as of December 31, 2017. The slight decrease in the allowance of \$63 thousand as of September 30, 2018 as compared to the year ended December 31, 2017 was primarily due to lower net charge-offs during the nine months ended September 30, 2018 compared to the same period in the 2017 and the reduction and elimination of our Hurricane Harvey reserve that was created in the third quarter 2017. We believe that the allowance for loan losses at September 30, 2018 and December 31, 2017 was adequate to cover probable incurred losses in the loan portfolio as of such dates. The ratio of annualized net charge-offs to average loans outstanding was 0.08% for the nine months ended September 30, 2018 compared to annualized net charge-offs of 0.36% for the nine months ended September 30, 2017 and the year ended December 31, 2017.

The following table presents, as of and for the periods indicated, an analysis of the allowance for loan losses and other related data:

	As of and for the Nine Months Ended	
	September 30,	
	2018	2017

Allowance for loan losses to nonperforming loans	157.84%	170.50%

(1) Interim periods annualized.

Available for Sale Securities

We use our securities portfolio to provide a source of liquidity, to provide an appropriate return on funds invested, to manage interest rate risk and to meet pledging and regulatory capital requirements. As of September 30, 2018, the carrying amount of investment securities totaled \$300.1 million, a decrease of \$9.5 million, or 3.1%, compared with \$309.6 million as of December 31, 2017. Securities represented 9.9% and 10.8% of total assets as of September 30, 2018 and December 31, 2017, respectively.

All of the securities in our securities portfolio are classified as available for sale. Securities classified as available for sale are measured at fair value in the financial statements with unrealized gains and losses reported, net of tax, as accumulated comprehensive income or loss until realized. Interest earned on securities is included in interest income.

The following table summarizes the amortized cost and fair value of the securities in our securities portfolio as of the dates shown:

	September 30, 2018			
	Amortized	Gross	Gross	Fair
	Cost	Unrealized	Unrealized	Value
	(Dollars in thousands)			
Available for Sale				
U.S. Government and agency securities	\$ 6,118	\$ 58	\$ (73)	\$ 6,103

Municipal securities	222,330	2,470	(1,842)	222,958
Agency mortgage-backed pass-through securities	32,014	159	(361)	31,812
Corporate bonds and other	46,247	62	(179)	46,130
Total	<u>\$ 309,098</u>	<u>\$ 2,923</u>	<u>\$ (2,406)</u>	<u>\$ 309,615</u>

As of September 30, 2018, we did not expect to sell any securities classified as available for sale with material unrealized losses; and management believes that we more likely than not will not be required to sell any securities before their anticipated recovery, at which time we will receive full value for the securities. The unrealized losses are largely due to increases in market interest rates over the yields available at the time the underlying securities were purchased. Management does not believe any of the securities are impaired due to reasons of credit quality. The fair value is expected to recover as the securities approach their maturity date or repricing date or if market yields for such investments decline. Accordingly, as of September 30, 2018, management believes any impairment in our securities is temporary, and no impairment loss has been realized in our consolidated statements of income.

The following table summarizes the contractual maturity of securities and their weighted average yields as of the dates indicated. The contractual maturity of a mortgage-backed security is the date at which the last underlying mortgage matures. Available for sale securities are shown at amortized cost. For purposes of the table below, municipal securities are calculated on a tax equivalent basis.

	September 30, 2018

The contractual maturity of mortgage-backed securities and collateralized mortgage obligations is not a reliable indicator of their expected life because borrowers may have the right to prepay their obligations. Mortgage-backed securities and collateralized mortgage obligations are typically issued with stated principal amounts and are backed by pools of mortgage loans with varying maturities. The term of the underlying mortgages and loans may vary significantly due to the ability of a borrower to prepay and, in particular, monthly pay downs on mortgage-backed securities tend to cause the average life of the securities to be much different than the stated contractual maturity. During a period of increasing interest rates, fixed rate mortgage-backed securities do not tend to experience heavy prepayments of principal and, consequently, the average life of this security will be lengthened. If interest rates begin to fall, prepayments may increase, thereby shortening the estimated life of this security.

As of September 30, 2018 and December 31, 2017, we did not own securities of any one issuer (other than the U.S. government and its agencies or sponsored entities) for which the aggregate adjusted cost exceeded 10% of our consolidated shareholders' equity.

The average yield of our securities portfolio was 2.68% during the nine months ended September 30, 2018 compared with 2.60% for the nine months ended September 30, 2017. The increase in average yield during the first nine months of 2018 compared to the same period in 2017 was primarily due to our increased investment in longer-term securities. This investment in higher-yielding securities replaced lower-yielding securities that matured or were called or prepaid.

Goodwill and Core Deposit Intangible Assets

Our goodwill as of September 30, 2018 and December 31, 2017 was \$39.4 million for both periods. Goodwill resulting from business combinations represents the excess of the consideration paid over the fair value of the net assets acquired and liabilities assumed. Goodwill is assessed annually for impairment or when events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable.

Our core deposit intangible assets, net as of September 30, 2018 and December 31, 2017, was \$2.7 million and \$3.3 million, respectively. Core deposit intangible assets are amortized using a straight-line amortization method over its estimated useful life of seven to nine years.

Deposits

Our lending and investing activities are primarily funded by deposits. We offer a variety of deposit accounts having a wide range of interest rates and terms including demand, savings, money market and certificates and other time accounts. We rely primarily on convenient locations, personalized service and our customer relationships to attract and retain these deposits. We seek customers that will engage in both a lending and deposit relationship with us.

Total deposits at September 30, 2018 were \$2.43 billion, an increase of \$219.8 million, or 9.9%, compared with \$2.21 billion at December 31, 2017. Noninterest-bearing deposits at September 30, 2018 were \$789.7 million, an increase of \$106.6 million, or 15.6%, compared with \$683.1 million at December 31, 2017. Interest-bearing deposits at September 30, 2018 were \$1.64 billion, an increase of \$113.2 million, or 7.4%, compared with \$1.53 billion at December 31, 2017.

Borrowings

We have an available line of credit with the Federal Home Loan Bank ("FHLB") of Dallas, which allows us to borrow on a collateralized basis. FHLB advances are used to manage liquidity as needed. The advances are secured by a blanket lien on certain loans. Maturing advances are replaced by drawing on available cash, making additional borrowings or through increased customer deposits. At September 30, 2018, we had a total borrowing capacity of \$1.04 billion, of which \$755.9 million was available and \$282.5 million was outstanding. FHLB advances of \$211.0 million were outstanding at September 30, 2018, at a weighted average interest rate of 2.20%. Letters of credit were \$71.5 million at September 30, 2018, of which \$32.1 million will expire in October 2018, \$13.1 million will expire in December 2018, \$8.8 million will expire in January 2019, \$10.2 million will expire in February 2019, \$5.5 million will expire in August 2019, \$300 thousand will expire in December 2019 and \$1.6 million will expire in January 2020.

Credit Agreement

In January 2015, we borrowed \$18.0 million under our credit agreement with another financial institution, which was in addition to the \$10.1 million of indebtedness incurred under the same credit agreement in 2014. We used the funds borrowed in 2015 to repay debt that F&M Bancshares owed and used the funds borrowed in 2014 to pay off a previous borrowing with another financial institution that had been entered into during 2013 in conjunction with the acquisition of Independence Bank. In October 2015, we paid down \$27.5 million of the credit agreement with a portion of the proceeds from the initial public offering of Allegiance common stock. The interest rate on the outstanding debt under the revolving credit agreement is the Prime rate minus 25 basis points, or 4.75%, at September 30, 2018, and is paid quarterly. As of September 30, 2018 and December 31, 2017, we had \$569 thousand of indebtedness owed under the credit agreement. Our revolving credit agreement matures in December 2021 and is secured by 100% of the capital stock of the Bank.

The maximum commitment to advance funds under our credit agreement was originally \$30.0 million, which has been and will continue to be reduced by \$4.285 million on each December 22nd, beginning on December 22, 2015. We are required to repay any outstanding balance in excess of the then-current maximum commitment amount. After giving effect to the annual reductions, the unused borrowing capacity of the revolving credit agreement was \$17.1 million at September 30, 2018.

Our credit agreement contains certain restrictive covenants, including limitations on our ability to incur additional indebtedness or engage in certain fundamental corporate transactions, such as mergers, reorganizations and recapitalizations. Additionally, the Bank is required to maintain a "well-capitalized" rating, a minimum return on assets of 0.65%, measured quarterly, a ratio of loan loss reserve to nonperforming loans equal to or greater than 75%, measured quarterly, and a ratio of nonperforming assets to aggregate equity plus loan loss reserves minus intangible assets of less than 35%, measured quarterly. At September 30, 2018, we believe we were in compliance with our debt covenants and had not been made aware of any noncompliance by the lender.

Junior Subordinated Debentures

In connection with the F&M Bancshares acquisition, we assumed junior subordinated debentures with an aggregate original principal amount of \$11.3 million and a current fair value at September 30, 2018 of \$9.3 million. At acquisition, we recorded a discount of \$2.5 million on the debentures. The difference between the carrying value and contractual balance will be recognized as a yield adjustment over the remaining term for the debentures.

Subordinated Notes

In December 2017, the Bank completed the issuance, through a private placement, of \$40.0 million aggregate principal amount of Fixed-to-Floating Rate Subordinated Notes (the "Notes") due December 15, 2027. The Notes were issued at a price equal to 100% of the principal amount, resulting in net proceeds to the Bank of \$39.4 million. The Bank intends to use the net proceeds from the offering to support its growth and for general corporate purposes. The Notes are intended to qualify as tier 2 capital for bank regulatory purposes.

The Notes bear a fixed interest rate of 5.25% per annum until (but excluding) December 15, 2022, payable semi-annually in arrears. From December 15, 2022, the Notes will bear a floating rate of interest equal to 3-Month LIBOR + 3.03% until the Notes mature on December 15, 2027, or such earlier redemption date, payable quarterly in arrears. The Notes will be redeemable by the Bank, in whole or in part, on or after December 15, 2022 or, in whole but not in part, upon the occurrence of certain specified tax events, capital events or investment company events. Any redemption will be at a redemption price equal to 100% of the principal amount of Notes being redeemed, plus accrued and unpaid interest, and will be subject to, and require, prior regulatory approval. The Notes are not subject to redemption at the option of the holders.

Contractual Obligations

The following tables summarize our contractual obligations and other commitments to make future payments as of September 30, 2018 and December 31, 2017 (other than deposit obligations), which consist of our future cash payments associated with our contractual obligations pursuant to our non-cancelable operating leases and our indebtedness owed to another financial institution. Payments related to leases are based on actual payments specified in underlying contracts.

	As of September 30, 2018				
	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	Total
	(Dollars in thousands)				
Credit agreement	\$ —	\$ —	\$ 569	\$ —	\$ 569
Operating leases	659	1,830	2,500	6,287	11,276
Total	\$ 659	\$ 1,830	\$ 3,069	\$ 6,287	\$ 11,845

	As of December 31, 2017				
	1 year or less	More than 1 year but less than 3 years	3 years or more but less than 5 years	5 years or more	Total
	(Dollars in thousands)				
Credit agreement	\$ —	\$ —	\$ —	\$ 569	\$ 569
Operating leases	1,806	1,030	1,950	4,673	9,459
Total	\$ 1,806	\$ 1,030	\$ 1,950	\$ 5,242	\$ 10,028

Off-Balance Sheet Items

In the normal course of business, we enter into various transactions, which, in accordance with accounting principles generally accepted in the United States, are not included in our consolidated balance sheets. We enter into these transactions to meet the financing needs of our customers. These transactions include commitments to extend credit and standby and commercial letters of credit, which involve, to varying degrees, elements of credit risk and interest rate risk in excess of the amounts recognized in our consolidated balance sheets.

Commitments to Extend Credit. We enter into contractual commitments to extend credit, normally with fixed expiration dates or termination clauses, at specified rates and for specific purposes. Substantially all of our commitments to extend credit are contingent upon customers maintaining specific credit standards at the time of loan funding. We minimize our exposure to loss under these commitments by subjecting them to credit approval and monitoring procedures. The amount and type of collateral obtained, if considered necessary by us, upon extension of credit, is based on management's credit evaluation of the customer. Management assesses the credit risk associated with certain commitments to extend credit in determining the level of the allowance for loan losses.

Standby Letters of Credit. Standby letters of credit are conditional commitments issued by us to guarantee the performance of a customer to a third party. If the customer does not perform in accordance with the terms of the agreement with the third party, we would be required to fund the commitment and we would have the rights to the underlying collateral. The maximum potential amount of future payments we could be required to make is represented by the contractual amount of the commitment. Our policies generally require that standby letter of credit arrangements contain security and debt covenants similar to those contained in loan agreements.

As of September 30, 2018 and December 31, 2017, we had outstanding \$696.3 million and \$620.0 million, respectively, in commitments to extend credit and \$14.7 million and \$17.2 million, respectively, in commitments associated with outstanding letters of credit. Since commitments associated with letters of credit and commitments to extend credit may expire unused, the total outstanding may not necessarily reflect the actual future cash funding requirements.

Liquidity and Capital Resources

Liquidity

Liquidity is the measure of our ability to meet the cash flow requirements of depositors and borrowers, while at the same time meeting our operating, capital, strategic cash flow needs and to maintain reserve requirements to operate on an ongoing basis and manage unexpected events, all at a reasonable cost. During the nine months ended September 30, 2018 and the year ended

[Table of Contents](#)

December 31, 2017, our liquidity needs have been primarily met by core deposits, borrowings, security and loan maturities and amortizing investment and loan portfolios. The Bank has access to purchased funds from correspondent banks and advances from the FHLB are available under a security and pledge agreement to take advantage of investment opportunities.

Our largest source of funds is deposits, and our largest use of funds is loans. Our average loans increased \$281.5 million, or 13.8%, for the nine months ended September 30, 2018 compared with the nine months ended September 30, 2017. We predominantly invest excess deposits in Federal Reserve Bank of Dallas balances, securities, interest-bearing deposits at other banks or other short-term liquid investments until the funds are needed to fund loan growth. Our securities portfolio had a weighted average life of 6.5 years and modified duration of 5.5 years at September 30, 2018, and a weighted average life of 6.5 years and modified duration of 5.5 years at December 31, 2017.

As of September 30, 2018 and December 31, 2017, we had no exposure to future cash requirements associated with known uncertainties or capital expenditures of a material nature.

Capital Resources

Capital management consists of providing equity to support our current and future operations. We are subject to capital adequacy requirements imposed by the Federal Reserve, and the Bank is subject to capital adequacy requirements imposed by the FDIC. Both the Federal Reserve and the FDIC have adopted risk-based capital requirements for assessing bank holding company and bank capital adequacy. These standards define capital and establish minimum capital requirements in relation to assets and off-balance sheet exposure, adjusted for credit risk. The risk-based capital standards currently in effect are designed to make regulatory capital requirements more sensitive to differences in risk profiles among bank holding companies and banks, to account for off-balance sheet exposure and to minimize disincentives for holding liquid assets. Assets and off-balance sheet items are assigned to broad risk categories, each with appropriate relative risk weights. The resulting capital ratios represent capital as a percentage of total risk-weighted assets and off-balance sheet items.

Under current guidelines, the minimum ratio of total capital to risk-weighted assets (which are primarily the credit risk equivalents of balance sheet assets and certain off-balance sheet items such as standby letters of credit) is 8.0%. At least half of total capital must be composed of tier 1 capital, which includes common shareholders' equity (including retained earnings), less goodwill, other disallowed intangible assets, and disallowed deferred tax assets, among other items. The Federal Reserve also has adopted a minimum leverage ratio, requiring tier 1 capital of at least 4.0% of average quarterly total consolidated assets, net of goodwill and certain other intangible assets, for all but the most highly rated bank holding companies. The federal banking agencies have also established risk-based and leverage capital guidelines that FDIC-insured depository institutions are required to meet. These regulations are generally similar to those established by the Federal Reserve for bank holding companies.

Under the Federal Deposit Insurance Act, the federal bank regulatory agencies must take "prompt corrective action" against undercapitalized U.S. depository institutions. U.S. depository institutions are assigned one of five capital categories: "well capitalized," "adequately capitalized," "undercapitalized," "significantly undercapitalized" and "critically undercapitalized," and are subjected to different regulation corresponding to the capital category within which the institution falls. A depository institution is deemed to be "well capitalized" if the banking institution has a total risk-based capital ratio of 10.0% or greater, a tier 1 risk-based capital ratio of 8.0% or greater, a common equity tier 1 capital ratio of 6.5% and a leverage ratio of 5.0% or greater, and the institution is not subject to an order, written agreement, capital directive or prompt corrective action directive to meet and maintain a specific level for any capital measure. Under certain circumstances, a well-capitalized, adequately capitalized or undercapitalized institution may be treated as if the institution were in the next lower capital category. In addition, the final rules implementing Basel Committee on Banking Supervision's capital guideline for U.S. Banks (Basel III Rules) became effective for us on January 1, 2015 with full compliance with all of the requirements being phased in over a multi-year schedule, and fully phased in by January 1, 2019. Starting in January 2016, the implementation of the capital conservation buffer was effective for us starting at the 0.625% level and increasing 0.625% each year thereafter, until it reaches 2.5% on January 1, 2019.

Failure to meet capital guidelines could subject the institution to a variety of enforcement remedies by federal bank regulatory agencies, including: termination of deposit insurance by the FDIC, restrictions on certain business activities and appointment of the FDIC as conservator or receiver. As of September 30, 2018 and December 31, 2017, the Bank was well capitalized.

Total shareholder's equity was \$328.1 million at September 30, 2018, compared with \$306.9 million at December 31, 2017, an increase of \$21.3 million, or 6.9%. This increase was primarily the result of net income of \$24.1 million for the nine months ended September 30, 2018.

The following table provides a comparison our leverage and risk-weighted capital ratios as of the dates indicated to the minimum and well-capitalized regulatory standards, as well as with the capital conservation buffer:

	<u>Actual Ratio</u>	<u>Minimum Required For Capital Adequacy Purposes</u>	<u>Minimum Required Plus Capital Conservation Buffer</u>	<u>To Be Categorized As Well Capitalized Under Prompt Corrective Action Provisions</u>
Allegiance Bancshares, Inc. (Consolidated)				
As of September 30, 2018				
Total capital (to risk weighted assets)	13.94%	8.00%	9.875%	N/A
Common equity Tier 1 capital (to risk weighted assets)	11.17%	4.50%	6.375%	N/A
Tier 1 capital (to risk weighted assets)	11.53%	6.00%	7.875%	N/A
Tier 1 capital (to average assets)	10.23%	4.00%	4.000%	N/A
As of December 31, 2017				
Total capital (to risk weighted assets)	13.43%	8.00%	9.250%	N/A
Common equity Tier 1 capital (to risk weighted assets)	10.54%	4.50%	5.750%	N/A
Tier 1 capital (to risk weighted assets)	10.92%	6.00%	7.250%	N/A
Tier 1 capital (to average assets)	9.84%	4.00%	4.000%	N/A
Allegiance Bank				
As of September 30, 2018				
Total capital (to risk weighted assets)	13.65%	8.00%	9.875%	10.00%
Common equity Tier 1 capital (to risk weighted assets)	11.24%	4.50%	6.375%	6.50%
Tier 1 capital (to risk weighted assets)	11.24%	6.00%	7.875%	8.00%
Tier 1 capital (to average assets)	9.98%	4.00%	4.000%	5.00%
As of December 31, 2017				
Total capital (to risk weighted assets)	13.24%	8.00%	9.250%	10.00%
Common equity Tier 1 capital (to risk weighted assets)	10.72%	4.50%	5.750%	6.50%
Tier 1 capital (to risk weighted assets)	10.72%	6.00%	7.250%	8.00%
Tier 1 capital (to average assets)	9.67%	4.00%	4.000%	5.00%

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK***Asset/Liability Management and Interest Rate Risk***

Our asset liability and interest rate risk policy provides management with the guidelines for effective balance sheet management. We have established a measurement system for monitoring our net interest rate sensitivity position. It is our objective to manage our sensitivity position within our established guidelines.

As a financial institution, a component of the market risk that we face is interest rate volatility. Fluctuations in interest rates will ultimately impact both the level of income and expense recorded on most of our assets and liabilities, and the market value of all interest-earning assets and interest-bearing liabilities, other than those which have a short term to maturity. Interest rate risk is the potential for economic losses due to future interest rate changes. These economic losses can be reflected as a loss of future net interest income and/or a loss of current fair market values. The objective is to measure the effect on net interest income and to adjust the balance sheet to minimize the inherent risk while at the same time maximizing income.

We have not entered into instruments such as leveraged derivatives, interest rate swaps, financial options, financial future contracts or forward delivery contracts for the purpose of reducing interest rate risk. Based upon the nature of our operations, we are not subject to foreign exchange rate or commodity price risk. We do not own any trading assets. We manage our exposure to interest rates by structuring our balance sheet in the ordinary course of a community banking business.

Our exposure to interest rate risk is managed by our Asset Liability Committee (“ALCO”), which is composed of certain members of our board of directors and Bank management, in accordance with policies approved by our Board of Directors. The ALCO formulates strategies based on appropriate levels of interest rate risk. In determining the appropriate level of interest rate risk, the ALCO considers the impact on earnings and capital of the current outlook on interest rates, potential changes in interest rates, regional economies, liquidity, business strategies and other factors. The ALCO meets regularly to review, among other things, the sensitivity of assets and liabilities to interest rate changes, the book and market values of assets and liabilities, unrealized gains and losses, purchase and sale activities, commitments to originate loans and the maturities of investments and borrowings. Additionally, the ALCO reviews liquidity, cash flow flexibility, maturities of deposits, and consumer and commercial deposit activity.

We use an interest rate risk simulation model and shock analysis to test the interest rate sensitivity of net interest income and the balance sheet, respectively. All instruments on the balance sheet are modeled at the instrument level, incorporating all relevant attributes such as next reset date, reset frequency, and call dates, as well as prepayment assumptions for loans and securities, and decay rates for nonmaturity deposits. Assumptions based on past experience are incorporated into the model for nonmaturity deposit account decay rates. The assumptions used are inherently uncertain and, as a result, the model cannot precisely measure future net interest income or precisely predict the impact of fluctuations in market interest rates on net interest income. Actual results will differ from the model’s simulated results due to timing, magnitude and frequency of interest rate changes as well as changes in market conditions and the application and timing of various management strategies.

We utilize static balance sheet rate shocks to estimate the potential impact on net interest income of changes in interest rates under various rate scenarios. This analysis estimates a percentage of change in the metric from the stable rate base scenario versus alternative scenarios of rising and falling market interest rates by instantaneously shocking a static balance sheet.

The following table summarizes the simulated change in net interest income and the economic value of equity over a 12-month horizon as of the dates indicated:

Change in Interest Rates (Basis Points)	Percent Change in Net Interest Income		Percent Change in Economic Value of Equity	
	As of September 30, 2018	As of December 31, 2017	As of September 30, 2018	As of December 31, 2017
+300	(2.8)%	(6.2)%	(1.5)%	(9.0)%
+200	(1.6)%	(4.1)%	(0.5)%	(5.4)%
+100	(0.9)%	(2.2)%	(0.1)%	(2.3)%
Base	0.0%	0.0%	0.0%	0.0%
-100	(2.0)%	(1.9)%	(2.8)%	(1.9)%

These results are primarily due to the duration of our loan and securities portfolio and the expected behavior of demand, money market and savings deposits during such rate fluctuations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures. As of the end of the period covered by this Quarterly Report on Form 10-Q, the Company carried out an evaluation, under the supervision and with the participation of its management, including its Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of its disclosure controls and procedures. In designing and evaluating the disclosure controls and procedures, management recognizes that controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management was required to apply judgment in evaluating its controls and procedures. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective as of the end of the period covered by this report. See Exhibits 31.1 and 31.2 for the Certification statements issued by the Company's Chief Executive Officer and Chief Financial Officer, respectively.

Changes in internal control over financial reporting. There were no changes in the Company's internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the quarter covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II—OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, we are subject to claims and litigation arising in the ordinary course of business. In the opinion of management, we are not party to any legal proceedings the resolution of which we believe would have a material adverse effect on our business, prospects, financial condition, liquidity, results of operation, cash flows or capital levels. However, one or more unfavorable outcomes in any claim or litigation against us could have a material adverse effect for the period in which such claim or litigation is resolved. In addition, regardless of their merits or their ultimate outcomes, such matters are costly, divert management's attention and may materially adversely affect our reputation, even if resolved in our favor. We intend to defend ourselves vigorously against any future claims or litigation.

ITEM 1A. RISK FACTORS

In evaluating an investment in any of the Company's securities, investors should consider carefully, among other things, information under the heading "Cautionary Notice Regarding Forward-Looking Statements" in this Form 10-Q, the risk factors previously disclosed under the heading "Risk Factors" in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2018 and in the Company's Annual Report on Form 10-K for the year ended December 31, 2017, and such other risk factors as the Company may disclose or has disclosed in other reports and statements filed with the Securities and Exchange Commission. As of September 30, 2018, there were no material changes to the risk factors disclosed in the Company's Quarterly Report on Form 10-Q for the quarter ended June 30, 2018 and in the Company's Annual Report on Form 10-K for the year ended December 31, 2017.

Section 2: EX-3.1 (EX-3.1)

Exhibit 3.1

RESTATED

**CERTIFICATE OF FORMATION
(WITH AMENDMENTS)
OF
ALLEGIANCE BANCSHARES, INC.**

Allegiance Bancshares, Inc. (the "Corporation"), pursuant to the provisions of Sections 3.051, 3.057, 3.059 and 21.056 of the Texas Business Organizations Code (the "TBOC"), hereby adopts this Restated Certificate of Formation (with Amendments) (the "Restated Certificate"), which accurately states the Corporation's existing certificate of formation and all amendments thereto that are in effect as of the date hereof (the "Original Certificate"), as further amended by this Restated Certificate. The Restated Certificate does not contain any other change except for information permitted to be omitted by Section 3.059(b) of the TBOC.

1. The name of the Corporation is Allegiance Bancshares, Inc.
2. The amendment made by this Restated Certificate has been made in accordance with the provisions of the TBOC.
3. The amendment made by this Restated Certificate has been approved in the manner required by the TBOC and the constituent documents of the Corporation.
4. Article III of the Original Certificate is amended and restated in its entirety to read as set forth in Article III of the Restated Certificate.
5. Section 5.1 of the Original Certificate is amended and restated in its entirety to read as set forth in Section 5.1 of the Restated Certificate.
6. The Original Certificate and all amendments and supplements thereto are hereby superseded by the following Restated Certificate:

**AMENDED AND RESTATED
CERTIFICATE OF FORMATION
OF
ALLEGIANCE BANCSHARES, INC.**

The undersigned, for purposes of incorporating a corporation under the provisions of the Texas Business Organizations Code (the “TBOC”), does hereby certify as follows:

**ARTICLE I
ENTITY NAME AND TYPE**

The filing entity being formed is a for-profit corporation. The name of the entity is Allegiance Bancshares, Inc. (the “Corporation”).

**ARTICLE II
PURPOSE**

The purpose for which the Corporation is formed is to engage in the transaction of any and all lawful business for which a for-profit corporation may be organized under the TBOC.

**ARTICLE III
REGISTERED AGENT AND REGISTERED OFFICE**

The registered agent is an individual resident of the state whose name is Shanna Kuzdzal. The business address of the registered agent and the registered office is 8847 W. Sam Houston Parkway N, Suite 200, Houston, Texas 77040.

**ARTICLE IV
[RESERVED]**

[Reserved]

**ARTICLE V
AUTHORIZED SHARES**

Section 5.1 Authorized Shares. The aggregate number of all classes of stock which the Corporation has authority to issue is 81,000,000 shares divided into (A) one class of 80,000,000 shares of Common Stock with a par value of \$1.00 per share, and (B) one class of 1,000,000 shares of Preferred Stock with a par value of \$1.00 per share, which may be divided into and issued in series as set forth in this Article V.

Section 5.2 Authorization of Directors to Determine Certain Rights of Preferred Stock. The shares of Preferred Stock may be divided into and issued in series. The Board of Directors shall have the authority to establish series of unissued shares of Preferred Stock by fixing and determining the relative rights and preferences of the shares of any series so established, and to increase or decrease the number of shares within each such series; provided, however, that the Board of Directors may not decrease the number of shares within a series of Preferred Stock to less than the number of shares within such series that are then issued. The Preferred Stock of each

such series shall have such designations, preferences, limitations, or relative rights, including voting rights, as shall be set forth in the resolution or resolutions establishing such series adopted by the Board of Directors, including, but without limiting the generality of the foregoing, the following:

(a) The distinctive designation of, and the number of shares of Preferred Stock that shall constitute, such series, which number (except where otherwise provided by the Board of Directors in the resolution establishing such series) may be increased or decreased (but not below the number of shares of such series then outstanding) from time to time by like action of the Board of Directors;

(b) The rights in respect of dividends, if any, of such series of Preferred Stock, the extent of the preference or relation, if any, of such dividends to the dividends payable on any other class or classes or any other series of the same or other class or classes of capital stock of the Corporation and whether such dividends shall be cumulative or noncumulative;

(c) The right, if any, of the holders of such series of Preferred Stock to convert the same into, or exchange the same for, shares of any other class or classes or of any other series of the same or any other class or classes of capital stock, obligations, indebtedness, rights to purchase securities or other securities of the Corporation or other entities, domestic or foreign, or for other property or for any combination of the foregoing, and the terms and conditions of such conversion or exchange;

(d) Whether or not shares of such series of Preferred Stock shall be subject to redemption, and the redemption price or prices and the time or times at which, and the terms and conditions on which, shares of such series of Preferred Stock may be redeemed;

(e) The rights, if any, of the holders of such series of Preferred Stock upon the voluntary or involuntary liquidation, dissolution or winding up of the Corporation or in the event of any merger or consolidation of or sale of assets by the Corporation;

(f) The terms of any sinking fund or redemption or repurchase or purchase account, if any, to be provided for shares of such series of Preferred Stock;

(g) The voting powers, if any, of the holders of any series of Preferred Stock generally or with respect to any particular matter, which may be less than, equal to or greater than one vote per share, and which may, without limiting the generality of the foregoing, include the right, voting as a series of Preferred Stock as a class, to elect one or more directors of the Corporation generally or under such specific circumstances and on such conditions, as shall be provided in the resolution or resolutions of the Board of Directors adopted pursuant hereto, including, without limitation, in the event there shall have been a default in the payment of dividends on or redemption of any one or more series of Preferred Stock; and

(h) Such other powers, preferences and relative, participating, optional and other special rights, and the qualifications, limitations and restrictions thereof, as the Board of Directors shall determine.

Section 5.3 Preferences, Limitations and Relative Rights of All Classes of Capital Stock.

(a) General. All shares of Common Stock shall have rights identical to those of all other such shares. Except as they may vary among series established pursuant to Section 5.2 of this Article V, all shares of Preferred Stock shall have preferences, limitations, and relative rights identical to those of all other such shares.

(b) Liquidation Preference. In the event of dissolution, liquidation, or winding up of the Corporation (whether voluntary or involuntary), after payment or provision for payment of debts but before any distribution to the holders of Common Stock, the holders of each series of Preferred Stock then outstanding shall be entitled to receive the amount fixed by the Board of Directors pursuant to Section 5.2 of this Article V and no more. All remaining assets shall be distributed pro rata among the holders of Common Stock. If the assets distributable among the holders of Preferred Stock are insufficient to permit full payment to them, the entire assets shall be distributed among the holders of the Preferred Stock in proportion to their respective liquidation preferences unless otherwise provided by the Board of Directors pursuant to Section 5.2 of this Article V. Neither the consolidation, merger, or reorganization of the Corporation with any other entity, nor the sale of all or substantially all the assets of the Corporation, nor the purchase or redemption by the Corporation of any of its outstanding shares shall be deemed to be a dissolution, liquidation, or winding up within the meaning of this paragraph.

(c) Redemption.

(i) Right; Method. All or any part of any one or more series of Preferred Stock may be redeemed at any time or times at the option of the Corporation, by resolution of the Board of Directors, in accordance with the terms and conditions of this Article V and those fixed by the Board of Directors pursuant to Section 5.2 of this Article V. The Corporation may redeem shares of any one or more series without redeeming shares of any other series. If less than all the shares of any series are to be redeemed, the shares of the series to be redeemed shall be selected ratably or by lot or by any other equitable method determined by the Board of Directors.

(ii) Notice. Notice shall be given to the holders of shares to be redeemed, either personally or by mail, not less than twenty nor more than fifty days before the date fixed for redemption.

(iii) Payment. Holders of redeemed shares shall be paid in cash the amount fixed by the Board of Directors pursuant to Section 5.2 of this Article V.

(iv) Provision for Payment. On or before the date fixed for redemption, the Corporation may provide for payment of a sum sufficient to redeem the shares called for redemption either (a) by setting aside the sum, separate from its other funds, in trust for the benefit of the holders of the shares to be redeemed, or (b) by depositing such sum in a bank or trust company (either one in Texas having capital and surplus of at least \$10,000,000 according to its latest statement of condition, or one anywhere in the United States duly appointed and acting as transfer agent of the Corporation) as a trust fund, with irrevocable

instructions and authority to the bank or trust company to give or complete the notice of redemption and to pay to the holders of the shares to be redeemed, on or after the date fixed for redemption, the redemption price on surrender of their respective share certificates. The holders of shares to be redeemed may be evidenced by a list certified by the Corporation (by its President or a Vice President and by its Secretary or an Assistant Secretary) or by its transfer agent. If the Corporation so provides for payment, then from and after the date fixed for redemption (a) the shares shall be deemed to be redeemed, (b) dividends thereon shall cease to accrue, (c) such setting aside or deposit shall be deemed to constitute full payment for the shares, (d) the shares shall no longer be deemed to be outstanding, (e) the holders thereof shall cease to be shareholders with respect to such shares, and (f) the holders shall have no rights with respect thereto except the right to receive (without interest) their proportionate shares of the funds so set aside or deposited upon surrender of their respective certificates, and any right to convert such shares which may exist. Any interest accrued on funds so set aside or deposited shall belong to the Corporation. If the holders of the shares do not, within six years after such deposit, claim any amount so deposited for redemption thereof, the bank or trust company shall upon demand pay over to the Corporation the balance of the funds so deposited, and the bank or trust company shall thereupon be relieved of all responsibility to such holders.

(v) Status of Redeemed Shares. Shares of Preferred Stock which are redeemed shall be canceled and shall be restored to the status of authorized but unissued shares.

(d) Purchase. Except as fixed by the Board of Directors pursuant to Section 5.2 of this Article V or as otherwise expressly provided by law, nothing herein shall limit the right of the Corporation to purchase any of its outstanding shares in accordance with law, by public or private transaction.

(e) Denial of Preemptive Rights. No holder of any shares of any class of stock of the Corporation shall, as such holder, have any preemptive or preferential right to receive, purchase, or subscribe to (1) any unissued or treasury shares of any class of stock (whether now or hereafter authorized) of the Corporation, (2) any obligations, evidences of indebtedness, or other securities of the Corporation convertible into or exchangeable for, or carrying or accompanied by any rights to receive, purchase, or subscribe to, any such unissued or treasury shares, (3) any right of subscription to or to receive, or any warrant or option for the purchase of, any of the foregoing securities, (4) any other securities that may be issued or sold by the Corporation, other than such (if any) as the Board of Directors of the Corporation, in its sole and absolute discretion, may determine from time to time.

(f) Denial of Cumulative Voting. Cumulative voting shall not be permitted.

ARTICLE VI DIRECTORS

The business and affairs of the Corporation shall be managed by or under the direction of a Board of Directors. Except as fixed by the Board of Directors pursuant to Section 5.2, the number of directors shall be fixed from time to time exclusively by resolution of the Board of Directors.

Section 6.1 Term. The full Board of Directors, other than those who may be elected by the holders of any class or series of stock established by the Board of Directors pursuant to Section 5.2, shall be divided into three classes, with respect to the time for which they severally hold office, designated Class I, Class II, and Class III. Each class shall consist, as nearly as may be possible, of one-third of the total number of directors constituting the full Board of Directors. The initial division of the Board of Directors following the effective date of the Certificate of Formation shall be as follows:

The Class I directors will initially consist of the following individuals, and their term shall expire at the annual meeting of shareholders to be held in 2016:

Daryl D. Bohls	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Lawrence G. Fraser	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Matthew H. Hartzell	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
James J. Kearney	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
P. Michael Mann, MD	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040

The Class II directors will initially consist of the following individuals, and their term shall expire at the annual meeting of shareholders to be held in 2017:

John B. Beckworth	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Frances H. Jeter	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
George Martinez	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
David B. Moulton	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Thomas A. Reiser	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040

The Class III directors will initially consist of the following individuals, and their term shall expire at the annual meeting of shareholders to be held in 2018:

William S. Nichols III	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Steven F. Retzloff	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Raimundo Riojas E.	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Fred S. Robertson	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040
Ramon A. Vitulli III	8727 W Sam Houston Parkway N, Suite 100 Houston, Texas 77040

A director shall hold office until the annual meeting of shareholders for the year in which his or her respective three-year term expires and until his or her respective successor shall be elected and shall be qualified or until his or her earlier death, resignation, retirement, disqualification or removal from office. Except as fixed by the Board of Directors pursuant to Section 5.2, (i) at each succeeding annual meeting of shareholders beginning in 2016, successors to the class of directors whose term expires at that meeting shall be elected for a three-year term and (ii) if the number of directors is changed, any increase or decrease shall be apportioned among the classes so as to maintain the number of directors in each class to as nearly as possible to one-third of the total number of directors, but in no case will a decrease in the number of directors shorten the term of any incumbent director. In any election of directors, the persons receiving a plurality of the votes cast, up to the number of directors to be elected in such election, shall be deemed elected. Directors need not be shareholders of the Corporation.

Section 6.2 Vacancies. Except as fixed by the Board of Directors pursuant to Section 5.2, any vacancy occurring in the Board of Directors, including any vacancy created by reason of an increase in the number of directors, may be filled by the affirmative vote of a majority of the directors then in office or by a sole remaining director, and any director so chosen shall hold office for the remainder of the term to which the director has been selected and until such director's successor shall have been elected and qualified.

Section 6.3 Removal. Subject to the rights of any class or series of stock established by the Board of Directors pursuant to Section 5.2, any director (including persons elected by the directors to fill vacancies in the Board of Directors) may be removed from office only for cause and only by the affirmative vote of a majority of the votes entitled to be cast by the shares of the then outstanding capital stock of the Corporation present in person or represented by proxy and entitled to vote generally in the election of directors at a duly constituted meeting of shareholders.

**ARTICLE VII
LIABILITY OF DIRECTORS**

No director of the Corporation shall be personally liable to the Corporation or its shareholders for monetary damages for breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the TBOC as the same now exists or may hereafter be amended. Any amendment, modification, or repeal of the foregoing sentence shall not adversely affect any right or protection of a director of the Corporation existing hereunder with respect to any act or omission prior to such amendment, modification, or repeal.

**ARTICLE VIII
INDEMNIFICATION**

In addition to the mandatory indemnification provisions of Chapter 8 of the TBOC, as permitted by Chapter 8 of the TBOC or any successor statute (the "Indemnification Article"), the Corporation hereby:

1. makes mandatory the indemnification permitted under Section 8.101 of the Indemnification Article as contemplated by Section 8.103 thereof;
2. makes mandatory its payment or reimbursement of the reasonable expenses incurred by a former or present director, officer or employee who was, is, or is threatened to be made a named defendant or respondent in a proceeding upon such director's compliance with the requirements of Section 8.104 of the Indemnification Article; and
3. extends the mandatory indemnification and the mandatory payment or reimbursement of expenses referred to above (a) to all former or present officers of the Corporation and (b) to all persons who are or were serving at the request of the Corporation as a director, officer, partner, agent or trustee of another foreign or domestic corporation, partnership, joint venture, trust or employee benefit plan, to the same extent that the Corporation is obligated to indemnify and pay or reimburse expenses to directors.

The indemnification provided by this Article shall not be deemed exclusive of any other rights to which the person indemnified may be entitled under any bylaw, agreement, authorization of shareholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office, and shall continue as to a person who has ceased to be a director, officer, employee or agent and shall enure to the benefit of such person's heirs and legal representatives.

The Corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee, or agent of the Corporation or who is or was serving at the request of the Corporation as a director, officer, partner, venturer, proprietor, trustee, employee, agent or similar functionary of another business, foreign, domestic or non-profit corporation, partnership, joint venture, sole proprietorship, trust or other enterprise or employee benefit plan, against any liability asserted against such person and incurred by such person in such a capacity or arising out of such person's status as such a person, whether or not the Corporation would have the power to indemnify such person against that liability under the provisions of this Article or the TBOC.

Notwithstanding any other provision of this Article, the Corporation shall pay or reimburse expenses incurred by any director, officer, employee or agent in connection with such person's appearance as a witness or other participation in a proceeding at a time when such person is not a named defendant or respondent in such proceeding.

**ARTICLE IX
INTERESTED TRANSACTIONS**

No contract or other transaction between the Corporation and one or more of its directors, officers or shareholders or between the Corporation and another corporation, partnership, joint venture, trust or other enterprise of which one or more of the Corporation's directors, officers or shareholders are members, officers, shareholders, directors or employees or in which they are otherwise interested, directly or indirectly, shall be invalid solely because of such relationship, or solely because such a director, officer or shareholder is present at or participates in the meeting of the Board of Directors or committee thereof which authorizes the contract or other transaction, or solely because his or their votes are counted for such purpose, if (i) the material facts as to his relationship or interest and as to the contract or other transaction are known or disclosed to the Board of Directors or committee thereof, and such board or committee in good faith, authorizes the contract or other transaction by the affirmative vote of a majority of the disinterested directors even though the disinterested directors be less than a quorum, or (ii) the material facts as to his relationship or interest and as to the contract or other transaction are known or disclosed to the shareholders entitled to vote thereon, and the contract or other transaction is approved in good faith by vote of the shareholders, or (iii) the contract or other transaction is fair as to the Corporation as of the time it is entered into.

**ARTICLE X
SPECIAL MEETINGS**

A special meeting of the shareholders of the Corporation may be called at any time by the president, the board of directors or the holders of not less than fifty percent of all shares entitled to vote at such meeting.

**ARTICLE XI
AMENDMENT OF BYLAWS**

The board of directors of the Corporation shall have the power to amend, modify or repeal any bylaw or adopt new bylaws. The shareholders of the Corporation shall not have the power to adopt, amend or repeal the bylaws of the Corporation.

**ARTICLE XII
EFFECTIVENESS OF FILING**

This document becomes effective when the document is filed by the Secretary of State of the State of Texas.

**ARTICLE XIII
EXCLUSIVE JURISDICTION**

Any state or federal court located in Harris County in the State of Texas shall be the sole and exclusive forum for (a) any actual or purported derivative action or proceeding brought on behalf of the Corporation, (b) any action asserting a claim of breach of a fiduciary duty owed by any director or officer of the Corporation to the Corporation or the Corporation's shareholders or creditors, (c) any action asserting a claim against the Corporation or any director or officer of the Corporation arising pursuant to any provision of the TBOC, the Certificate of Formation or the Bylaws of the Corporation, or (d) any action asserting a claim against the Corporation or any director or officer of the Corporation governed by the internal affairs doctrine.

**ARTICLE XIV
SERIES A AND SERIES B PREFERRED STOCK**

Section 14.1 Series A. The Statement of Designations of Fixed Rate Cumulative Perpetual Preferred Stock, Series A of the Corporation filed with the Texas Secretary of State on December 29, 2014 is hereby referred to and incorporated herein in its entirety.

Section 14.2 Series B. The Statement of Designations of Fixed Rate Cumulative Perpetual Preferred Stock, Series B of the Corporation filed with the Texas Secretary of State on December 29, 2014 is hereby referred to and incorporated herein in its entirety.

Section 3: EX-31.1 (EX-31.1)

Exhibit 31.1

CERTIFICATION OF THE CHIEF EXECUTIVE OFFICER PURSUANT TO RULE 13a-14(a) OF THE SECURITIES EXCHANGE ACT OF 1934, AS AMENDED

I, George Martinez, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Allegiance Bancshares, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-31.2 (EX-31.2)

**CERTIFICATION OF THE CHIEF FINANCIAL OFFICER PURSUANT TO RULE 13a-14(a) OF THE
SECURITIES EXCHANGE ACT OF 1934, AS AMENDED**

I, Paul P. Egge, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Allegiance Bancshares, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 5: EX-32.1 (EX-32.1)

**CERTIFICATION PURSUANT TO 18 U.S.C. SECTION 1350 (AS ADOPTED PURSUANT TO SECTION 906 OF THE SARBANES-OXLEY ACT
OF 2002)**

In connection with the Quarterly Report of Allegiance Bancshares, Inc. (the "Company") on Form 10-Q for the period ending September 30, 2018 as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, George Martinez, Chairman and Chief Executive Officer of the Company, certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and operating results of the Company as of the dates and for the periods expressed in the Report.

IN WITNESS WHEREOF, the undersigned has executed this Certificate, effective as of November 1, 2018.
